Article 2 - Packaging

Goods presented for transport must be properly packed and clearly labelled with delivery address and information on the contents of the package. The client is liable for damages resulting from improper packaging. Any barrels/drums, regardless of size or weight, must be firmly anchored to pallets. If the customer presents dangerous goods for transport, these must meet the statutory requirements. The customer is responsible for correct labelling (including labelling on the outside of the truck), approved packaging, the transport document and the consignor's declaration. If the shipment concerns a hazardous substance, the UN number and substance name of the relevant substance must be stated in the order to Mainfreight Express. If a shipment is sent to the relevant destination despite the restrictions in appendix 1, a fine of €520 applies. Due to legally imposed ADR/IMDG restrictions and mixed loading prohibitions for certain UN codes, the duration of your shipment may deviate from our standard duration.

Article 4. Registration of consignments

Every transport order must be confirmed in writing. If we reserve capacity, but this is not or only partially used this is called error cargo, this can occur because, among other things, goods are not ready, no one is present or a wrong address has been given. In case of error freight, we are entitled to charge the agreed freight rate. If we have to make a second delivery attempt, both the first and second transport costs will be charged.

Export shipments must be registered no later than 10.30 am on the collection day.

Import shipments from Belgium, Germany, Denmark and Switzerland must be registered no later than 4.30 pm on the day before collection. Import shipments from other countries should be registered no later than 11.30 am on the day before collection. Rates from Mainfreight Express are based on registration by Shipment Centre EU or EDI. The printout from Shipment Centre EU/ EDI is your bill of lading, a CMR is not necessary anymore.

Article 5 - Reporting damages

All reports of damages or missing items must be filed with Mainfreight Express in writing immediately. In cases of externally visible damages upon delivery/receipt, this must be immediately noted on the waybill. Other damages must be notified in writing to Mainfreight Express within 7 business days after delivery/receipt. Failing notification in writing within this period, the right of claim expires.

Article 6 - Customs documents

Mainfreight Express must have access to the correct documents to properly carry out your assignment. For further details on the documents required, please see the schedule "Customs Documents Procedure." The client indemnifies Mainfreight Express for all damages and costs, of any designation whatsoever, resulting from the inaccuracy of the information supplied by the client, as well as all taxes and other levies by customs or other authorities for any reason whatsoever.

Costs:

For shipments to and from countries outside the EU, the following documents are required in addition to the original commercial invoice and packing list. The following costs will be charged for this:

Customs documentation: inclusive 1 HS code per document, each additional HS code is € 8.- per HS code

- Registration for import in NL € 58.- per shipment (one-time signed Direct Representative required)
- Registration for export in NL € 42.- per shipment (one-time signed Direct Representative required)

Procedure for customs documents

1. Consignments with customs documents for recipients within EU-states.

The document number should be mentioned when registering the relevant consignment. A copy of the document, together with a copy of the commercial invoice, should be mailed to cs.mainfreightexpress@mainfreight.com. The relevant document number should also be mentioned on the accompanying consignment note. The document will be delivered to the consignee you have specified. If the consignment has to be cleared by Mainfreight Express, you should indicate where and by whom the consignment is to be cleared.

2. Consignments with customs document for recipients in NON-EU states.

The document number should be mentioned when registering the relevant consignment. A copy of the document, together with a copy of the commercial invoice and the correct delivery conditions, should be mailed on the day of shipping before 4.00 pm to cs.mainfreightexpress@mainfreight.com. In addition, the accompanying consignment note should be provided with the relevant document number. The document itself should be handed over to the driver.

3. Consignments without a customs document for non-EU states (Mainfreight Express prepares the export document).

The commercial invoice should be mailed to cs.mainfreightexpress@mainfreight.com before 4.00 pm when registering the consignment. The invoice should mention the HS code for the goods to be shipped. The invoice should also include the correct delivery term. The original commercial invoice should be handed to the driver.

4. Shipments for EU islands covered by the free movement of the European Community.

For a number of islands belonging to countries of the European Union, including the Canary Islands, French Overseas Departments (Guadeloupe, Martinique, French Guiana, Reunion, Mayotte), Hellenic Mount Athos (Jersey, Guernsey) and the Aland Islands, account must be taken of certain customs documentation in the form of T2F, T2L, T2LF. This is a provenance document and shows that the goods mentioned herein are released for free circulation by the European Community. These documents are important when goods are transported by sea from one part of the customs territory to another area. If a ship from international waters enters a port in the European Community, Customs assumes that all goods contained in the ship are from outside the European Community and are therefore non-Community goods. For the preparation of these documents, the same amount is calculated as for the preparation of an export document.

Article 7 - Rates and payment conditions

The rates are based on a kg-sliding scale per shipment, and are calculated in euro (€). The published rates apply for each individual assignment and are exclusive of VAT, import duties, excise duties and other governmental levies. The Dutch Transport Operators Association's (*Transport & Logistiek Nederland*) general terms and conditions of payment, filed with the court registry of the District Court of The Hague, apply. Payment within 14 days of date of invoice. The NEA increase is followed annually.

Transport to and from countries with a currency other than the Euro may be charged with a CAF surcharge (Currency Adjustment Factor). Every quarter the surcharge will be recalculated and will be visible on www.mainfreight.com/nl/en/nl-home/info-point-transport/caf-surcharge.aspx. The current CAF surcharge is also available here.

Article 8. Insurance

If you have not contracted transport insurance independently, your consignments are insured up to a maximum of 50,000 euro per consignment, excepting where agreed otherwise in writing between you and Mainfreight Express. This insurance does not apply to logistics service providers and carriers. All-Risk insurance is available by request.

Article 9. Euro pallets/gitter boxes (cargo carriers)

General

EURO pallets will not be exchanged unless expressly agreed otherwise. EURO-pallet exchange is the process whereby the sender of goods, and the receiver of goods, exchange EURO-pallets. The receiver of the goods returns (exchanges) empty EURO-pallets to the sender. In this manner, the EURO-pallets can be reused in the cycle. As such, the agreement to exchange EURO-pallets exists solely between the sender and receiver of the goods. As a transportation supplier, Mainfreight Express can facilitate the exchange process.

Exchange countries

EURO-pallet exchange is a standardized process in the following countries:

- Germany
- Austria
- Switzerland
- Belgium
- the Netherlands
- Luxemburg
- Denmark
- France

Article 10. Registration of consignments

In principle, Mainfreight Express accepts all types of goods, with the exception of precious metals, precious stones, jewellery, pearls, money, coins, art, securities, certificates, weapons, ammunition, radioactive substances, gas cylinders and nuclear fuels. In connection with legal requirements for co-loading with hazardous substances, the customer must explicitly state in the notification if it concerns food-related goods (HACCP). Mainfreight Express is entitled to refuse all goods mentioned above. All costs resulting from orders regarding these goods shall be for the account of the customer.

Mainfreight Express offers transport of new lithium batteries (packing regulation P903). If the goods offered are other than lithium batteries packaged under packing instruction P903 (such as P908, P909, P910, P911), alternative forms of transport can be coordinated with Mainfreight Express. In addition, the customer of the transport is obliged to indemnify and hold Mainfreight Express harmless against third-party claims for damage caused by the batteries received for transport, the handling thereof, or by incorrect packaging, labeling or entries on the packages and/or in the transport documents.
