# Local Port Conditions

	Ocean Import	Ocean Export	Additional Remarks
Korea	Operating as normal, but ETA delays 3-7days from the original schedule.	Operating as normal, but ETD delays 3-7days from the original schedule.	All the Korean terminals can only allow containers being dropped of 3 days prior to the vessel departure. CMA : lack of equipments.
Japan	Normal operation. ETA delay around 2-7days	Normal operation. ETD delay around 2-7days	Container drayage is heavy crowded, need to book containr drage before 2 weeks of pickup/delivery date.
Tianjin	ETA delay 5-7days	Normal operation , but ETD delay 3-7days	CMA control EIR print sometimes , they also lack of 40gp seriously
Qingdao	Normal operation. ETA delay around 3-7days	Normal operation. ETD delay around 3-7days. Especially MSC,may delay more than 7days	1.No port congestion. 2. CMA can't print EIR to EU/US at weekends. 3. ANL is lack of NOR equipment. 4. MSC's schedules to AU are unstable. For AUWC, they change vessels routing mostly. For AUWC, they may change direct vessel to transshipment vessel.
Shanghai	Operating as normal.	Normal operation, Vessel delay around 5~7 days	Space is tight and carrier control space per the allocation,many rollings faced.
Ningbo	Normal operation	Normal operation, Vessel delay around 5~7 days	Space is tight and carrier control space per the allocation,many rollings faced.
Chongqing	Normal operation	Normal operation,Vessel delay around 5 days	Space is tight,CMA:lack of equipments.
Xiamen	Operating as normal.	Operating as normal.	1.MSC/COSCO sailing to AU are subject to change due to sailing plan change ,space getting tight from Jan . 2.Regared to EU/TP lane ,space is available now 3. Terminal operate as normal 4.CFS warehouse operate as normal .5.cartage & truck arrange as normal.6.CMA &ONE lack of 20NOR
Shenzhen	Operating as normal.	ETD delay around 3-5 days.	No port congestion issue.CMA control EIR print sometime , most carriers lack of 20NOR and 40NOR.The port is not congestion, the schedule is unstable due to the shipping company. EU &US roughly delay 3 days. MSC is the seriously around 5 days. AU/NZ roughly delay 5 ~ 7 days, reason is AU port congestion caused vessel can't back late.
Guangzhou	Operating as normal.	ETD delay around 3-5 days.	No port congestion issue. CMA control EIR print sometime , most carriers lack of 20NOR and 40NOR.The port is not congestion, the schedule is unstable due to the shipping company. EU &US roughly delay 3 days. MSC is the seriously around 5 days. AU/NZ roughly delay 5 ~ 7 days, reason is AU port congestion caused vessel can't back late.

# Local Port Conditions

	Ocean Import	Ocean Export	Additional Remarks
Hong Kong	ETA delay around 2-4 days.	ETD delay around 3-5 days.	Overall, January should see steady conditions, with no major delays but watch for secondary effects from holiday backlog recovery post-December 2025;
Taiwan	ETA usually delay around 3-5 days.	ETD delay around 3-7 days.	No port congestion issue.
Vietnam	Operating as normal.	Operating as normal.	The vessel delays 4-5 days due to congestion issue in transit ports as well as VUT/HPH port.
Thailand	Operating as normal, ETA still delay 1-3 days	Operating as normal, ETD still delay 3-5 days	Recommend to place booking earlier and pick up empty container right after CY opens in order to be in priority to get booking confirmation / equipment Expect further blank sailings, schedule adjustments, and contract renegotiations as carriers seek to balance supply and demand. Monitor carrier advisories for blank sailings and port omissions in daily basic. Blain sailing continue, the sailing is open for booking with occasion rolling due to blank sailing.
Malaysia	Operating as normal.	Operating as normal.	No port congestion issue.
Singapore	Operating as normal.	Operating as normal.	facing some port congestion especially vessel berthing into port
Indonesia	Operating as normal, ETA still delay 1-2 days	Operating as normal, ETD still delay 2-3 days, ETD Delays due to delay from previous Ports in China related with Weather	No Port Congestion Issue, Space getting tight, especially to US pending for Connecting Vessel (CMA). Space to AU and NZ also getting tight
India	Vessels arriving from Singapore is delayed due to severe congestion	1 to 2 days delay in sailing from Nhava Sheva, Mundra and Pipavav	No Issue

# Local Airport Conditions
