Procedure for customs documents

1. Consignments with customs documents for recipients within EU-states.

The document number should be mentioned when registering the relevant consignment. A copy of the document, together with a copy of the commercial invoice, should be mailed to cs.mainfreightexpress@mainfreight.com. The relevant document number should also be mentioned on the accompanying consignment note. The document will be delivered to the consignee you have specified. If the consignment has to be cleared by Mainfreight Express, you should indicate where and by whom the consignment is to be cleared.

The document number should be mentioned when registering the relevant consignment. A copy of the document, together with a copy of the commercial invoice and the correct delivery conditions, should be mailed to cs.mainfreightexpress@mainfreight.com. The relevant document number should also be mentioned on the accompanying consignment note. For export consignments to countries outside the EU where the goods originate is within the EU and the invoice value is less than € 6000,-, the accompanying commercial invoice should include an invoice declaration. Where the invoice value is € 6000,- or more, an EUR1 certificate or an ATR certificate (only for consignments to Turkey) should be issued by the chamber of commerce. The invoice declaration should be worded as follows:

German:

Der Ausführer dieser Ware, auf die sich dieses Handelspapier bezieht, erklärt dass diese Ware, soweit nicht anders angegeben, präferenzbegünstigte [state country of origin here] Ursprungswaren sind.

English:

The exporter of the products covered by this document declares that, except where clearly indicated otherwise, these products are of [state country of origin here] preferential origin.

4. Shipments for EU islands covered by the free movement of the European Community.

For a number of islands belonging to countries of the European Union, including the Canary Islands, French Overseas Departments (Guadeloupe, Martinique, French Guiana, Reunion, Mayotte), Hellenic Mount Athos (Jersey, Guernsey) and the Aland Islands, account must be taken of certain customs documentation in the form of T2F, T2L, T2LF. This is a provenance document and shows that the goods mentioned herein are released for free circulation by the European Community. These documents are important when goods are transported by sea from one part of the customs territory to another area. If a ship from international waters enters a port in the European Community, Customs assumes that all goods contained in the ship are from outside the European Community and are therefore non-Community goods. For the preparation of these documents, the same amount is calculated as for the preparation of an export document.

Article 7 - Rates and payment conditions

The rates are based on a kg-sliding scale per shipment, and are calculated in euro (€).

The published rates apply for each individual assignment and are exclusive of VAT, import duties, excise duties and other governmental levies. Every quarter the surcharge will be recalculated and will be visible on www.mainfreight.com/nl/en/nl-home/info-point-transport/caf-surcharge.aspx. The current CAF surcharge is also available here.
