

MAINFREIGHT

ANNUAL REPORT 2026

We are a borderless,
integrated network
**that spans time zones
and continents.**
And never sleeps.

The connectedness of our network and motivation of our people powers us to find efficiencies and opportunities.

Connection and consistency

Offer customers a connected, continuous network providing vital links between small towns, major cities and capitals of the world. We strive to provide consistent quality, technologies and service across every branch and region

Operate as one seamless business

We draw on our international 'brains trust' to evaluate local conditions and risks and utilise every corner of our network. We want to give customers every reason to work with us

Stay aspirational and focused

Learn from disruptions; be meticulous about quality; find efficiencies; continue to seek out customers who trade internationally and fit our business

Harness our agility

We have the scale of international infrastructure and resources, yet the agility and autonomy to adapt as conditions change. By understanding our customers' complex needs and priorities at a local and international level, we can customise integrated solutions quickly and decisively

Honour our 100 year journey

Back-to-back adverse conditions in recent years have seen the business learn, grow and adapt. Expecting the unexpected is embedded in our culture. In 50 or 100 years from now, we will look back on these as some of our most important and formative years.

The agility, decisiveness and vision that's powered us for 48 years, continues to underpin the 'what' and 'how' of everything we do.

My greatest thanks go to our team who have worked tirelessly to maintain and improve service levels.

Mainfreight Australia is critical to our future success. Since commencing operations 29 years ago, last year the profitability of our Australian business exceeded that of our New Zealand business for the first time. Our Australian earnings continued to track ahead of New Zealand's in the year ended March 2026.

Building an international business is not easy, particularly as we continue to develop markets in Europe, the Americas and Asia. It remains paramount that our New Zealand and Australian operations maintain their high standards as we grow around the world.

This year marks 30 years since Mainfreight was publicly listed on the NZX on 14 June 1996, a significant milestone in the company's history. Our first annual report in 1996 highlighted a then-record net profit after tax of \$5.004 million. From these humble beginnings we have grown to be an international business, underpinned by a culture focussed on delivering unrivalled service to our customers, and a commitment to long term success.

As advised last year, Bryan Mogridge will retire from the Mainfreight Board after 23 years of informed, intelligent and inspiring service. Beyond Mainfreight, Bryan has made significant contributions to several charities, including the Starship Foundation, where he was a founding trustee. We have great respect for Bryan's business acumen and the wisdom he has brought to our company. On behalf of the Board, and the wider Mainfreight team, I thank him sincerely for his outstanding service.

My greatest thanks go to our team worldwide who have worked tirelessly to maintain and improve service levels despite major weather events and unexpected peaks and troughs in freight volumes. Thank you team for your will to achieve which continues to drive our success.

 **Bruce Plested**, June 2026

EMILE LAMBARAA, AUCKLAND, NEW ZEALAND

Second half improvements have continued into the early stages of our new financial year.

Don Braid Group Managing Director

On behalf of the Mainfreight family, the following commentary and financial analysis provides our shareholders with insights into the ongoing development and performance of our company.

In our 2025 report we noted the expected disruption to international supply chains as the global economy reacted to trade tariff implementation. Whilst this proved challenging for our customers to negotiate, general trading across most trade lanes was satisfactory.

Our own financial performance was disappointing during the first six months, where we were slow to adjust our internal cost structures and freight efficiencies. This was reflected in an 18% decline in profitability in the first half of the financial year. The initiatives and determination of our people to find improvements in margin, cost management and new sales growth provided a much improved second half performance. This resulted in annual sales growth of 2.8% to NZ\$5.4 billion. A satisfactory improvement on our first half performance resulted in a year-end profit before tax of NZ\$350.9 million – a decrease of 8.5% on the year prior.

These second half improvements have continued into the early stages of our new financial year. Trading through April and May 2026 has improved on the year prior, and we are proud of the way our team have contributed to this improved performance.

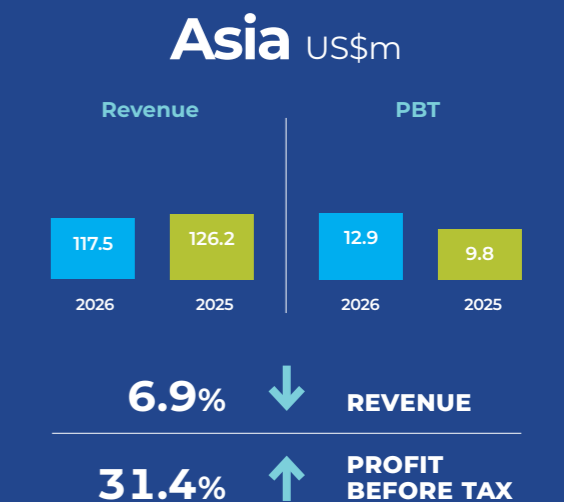

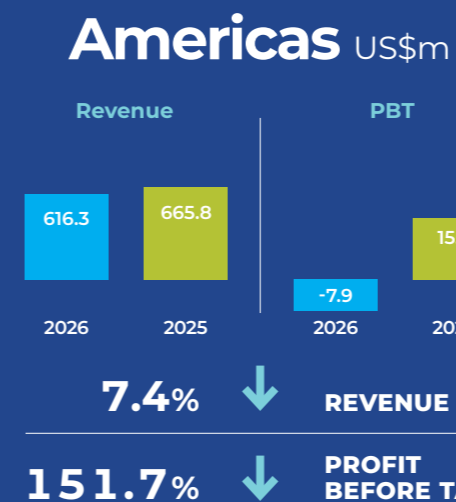

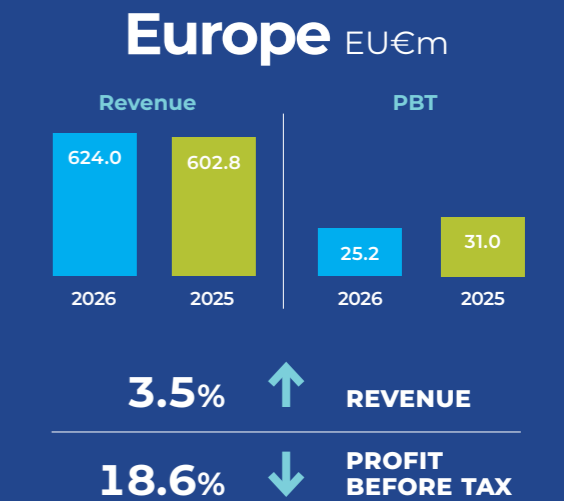

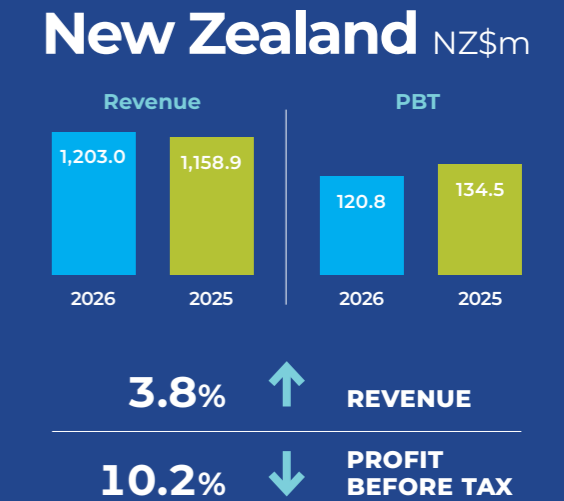

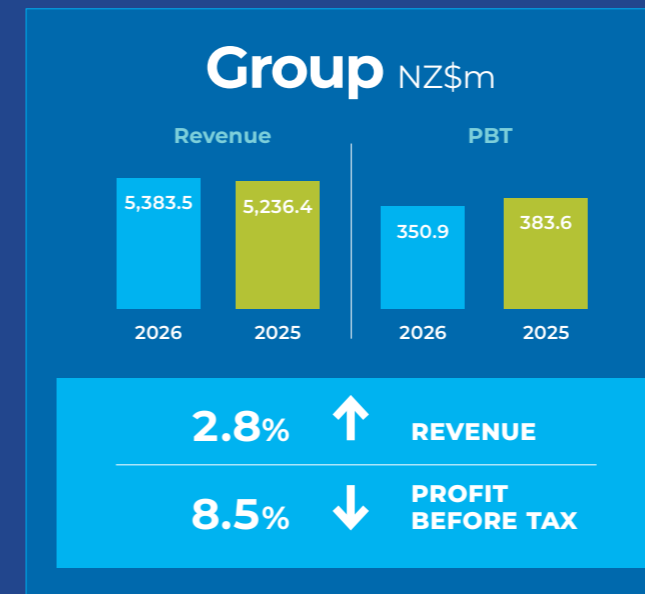

We continue to invest in our network, particularly across New Zealand and Australia, where our profitability and ever-increasing market share provide satisfactory returns and significant sales growth opportunities. New facilities were completed in Auckland, Whanganui, Hastings,

New Plymouth, Brisbane, Melbourne and Townsville. Capital expenditure on land and buildings totalled NZ\$112 million in the year ended March 2026.

While overhead cost increases, as a consequence of our investment in new land and buildings, impacted our profitability during the year, these investments will benefit our network and long-term profitability. We will continue to invest in infrastructure that best serves our people and our customers. Customer enquiry and commitment gives us confidence to continue our expansion and investment. In the year ahead, we look forward to opening our new Brisbane cross-dock and Christchurch warehouse facilities which are considerably larger, and more efficient than our current sites.

Network size and intensity remains a key strategic advantage for us, providing scale and opportunity for our customers.

Planning continues for new cross-docks in Perth, Western Australia, Nelson and Blenheim, New Zealand, and a large new warehouse in Auckland, New Zealand. Investment in new facilities, either via our own capital or long-term leasing arrangements, remain integral to our network strategies. While the majority of these investments are currently focused in New Zealand and Australia, investments in Europe and the Americas will occur when profitability reaches acceptable levels. Our warehouses and cross-docks in these regions are currently under-performing by our standards, and require significant profit improvement before we commit further capital or incur additional lease costs. We expect land and building capital investment in the coming year to total NZ\$174 million.

ASHLEI COPPENRATH AND EMYLIE LOXTON, LARAPINTA, BRISBANE, AUSTRALIA

Supply chain freight solutions continue to be a strong focus in our customer relationships, as we offer an increasing range of services for our customers. This is further strengthened as we develop a trusted reputation and capability within some of the largest trading nations of the world. We remain focused on high quality freight services, particularly across the food, beverage and retail customer verticals.

A key feature of our supply chain customer relationships involve capable and effective information technology, helping us deliver exceptional customer experience, IT efficiency and visibility. Apart from the air and ocean division, our software platforms are developed in-house. Leveraging this software allows us to improve customer

efficiencies across their supply chain, and forms a key component of our sales pitch. We remain focussed on improving IT alignment across our international network, removing duplication in IT solutions.

We have embraced the adoption of robotics, in a staged manner, in our warehouses. While yet to return the levels of efficiency that we expect, they are providing valuable learning opportunities as we continue to build warehousing capabilities.

The use of AI is also being integrated across our company. Our teams are adopting varying applications to assist large data stream analysis, and simplify and improve logistics tasks. It is our expectation that the use

of AI will continue to increase as we develop software applications to improve our customers' supply chains.

Regional Performance

Our five regions, New Zealand, Australia, Asia, Europe and The Americas are at varying stages of profit and network performance. In our home markets of New Zealand and Australia, we continue to grow market share and improve our profitability returns. While New Zealand lagged Australia in terms of absolute earnings this year, both markets continue to provide opportunity for further growth and improvement.

New Zealand is developing significant capability across supply chains for the transport and warehousing of food

and beverage. Refrigerated transportation has been introduced into our network to help the supermarket retailers with their distribution requirements. New warehouses are being constructed with chilled storage capability to complement our transport chilled service offerings.

Ferry shortages across the vital Cook Strait corridor remain an issue for our transport and warehousing operations, and are likely to remain an issue until long term ferry replacements are in service - likely 2029. KiwiRail performance is improving, and we continue to advocate for more rail services for both short-haul and long-haul freight transportation throughout New Zealand.

In Australia we have increased our share of the logistics market as our service and capability improve. We remain focussed on the LTL/FTL express freight transport sectors, complemented by high quality warehousing and air and ocean freight services.

It has taken significant time, effort and capital to build our freight network across Australia, and we are proud of the quality and intensity we have achieved utilising these facilities. The warehouses and cross-docks are larger than those we have built in New Zealand – such is the size and opportunity of the Australian logistics industry.

Investment in larger airfreight facilities have been made in Melbourne to complement the growth we have seen in the international freight sector, particularly addressing customer needs in the perishable food export and import sectors. Rail services are a newer developing feature alongside our road freight operations, and we expect the use of rail in Australia to grow further in coming years.

We expect these investments to deliver higher profit returns in the years to come.

Asia remains our smallest revenue earning region. We now have representation in 11 countries across the Asian region, and we expect this region to provide significant growth over the long term. Irrespective of tariff implications, Asia continues to be a major contributor to international trade. Our customers are utilising our international network to move both raw materials and finished product from the region into our warehouses and freight networks.

We are currently located in ten countries in the European region, however approximately 80% of our profitability is generated from our operations in the Netherlands and Belgium. While our transport and warehousing networks are comprehensive, there is much to do to find greater levels of efficiency and improved profit returns. Our international air and ocean footprint across Europe continues to expand, and is attracting greater levels of customer enquiry, however we require better sales performance and efficiencies to increase our returns from France, Romania, Poland, the United Kingdom and Germany.

The Americas remains our poorest performing region financially. It is the region with the greatest amount of potential, and plays a significant role in our international aspirations. Despite our ongoing poor financial

performance, we are improving our level of quality and capability. We remain small in the context of the USA transport and warehousing market, however, we are competing and beginning to see improvement. In the past 12 months we have opened a larger warehouse in Toronto, Canada, as a result of customer commitments. Improving the transport and warehousing locations in Chicago, Dallas, New Jersey and Los Angeles are the priority for the immediate future.

Fuel Supply Disruptions

As a consequence of the Middle Eastern conflict, the cost of fuel, in particular diesel, has increased significantly. These cost increases had a marginal effect on trading this financial year, with increases only beginning to impact at the end of March 2026.

Our domestic transport businesses worldwide are the most affected by fuel cost increases. Diesel remains the preferred and necessary fuel for freight distribution, and sea and air freight cost increases follow accordingly. Fuel adjustment factors are applied to our customers' freight rates as a means to recover the fuel cost increases. These adjustments are passed through to our owner drivers, contractors and service providers. It is our expectation that fuel costs will remain elevated for some time to come.

At the time of writing, we are comfortable that supply constraints will not feature in the medium term, and we are working closely with the New Zealand Government to stay abreast of supply strategies.

We would have liked better financial performance outcomes in this past year, however, improvements in our second half performance has provided a better than expected year end result. This momentum has continued into the new year to date, with strong and successful sales growth continuing in all regions.

We still have plenty to improve, and are excited by the ongoing opportunities, and the energy and dedication of our people.

We look forward to delivering better results in the year to come.

Capital Expenditure

Capital expenditure is directed and approved by the Board of Directors based on recommendations made by senior management. Expenditure can be classified into three divisions; Property, Racking and Fit-Out Costs; Plant, Equipment and Software; and Information Technology.

During this past financial year, net capital expenditure totalled \$189 million. Total capital expenditure is estimated at \$234 million for the 2027 financial year, of which capital required for property development is expected to be approximately \$174 million (with approximately \$102 million for the 2028 financial year).

Property / Racking and Fit-Out Costs

Of the \$189 million, \$112 million was spent on land and buildings, primarily across our network in New Zealand and Australia. A further \$39.9 million was spent on racking and other property fit-out costs.

Land purchases, planning and resource consent processes and construction are underway across a number of projects in New Zealand and Australia.

These include both large city developments in Australia and a number of smaller regional sites in New Zealand, as we continue the intensification of our network. European land investment has been delayed. Land holdings in Chicago, USA, will be held in a land bank until our network requires additional capacity, and our profitability returns to acceptable levels to justify further investment.

Property investment decisions will continue to be made on an as-required basis, albeit with longer growth planning for land purchases. Better land banking would be advantageous, particularly in Australasia, rather than the current buy-to-construct-now approach.

In conjunction with these land and building investment decisions, we are continuing to commit to a number of long-term lease arrangements, particularly for warehouses as and when customer demand and growth dictates.

Plant, Equipment and Software

Capital spend of \$36.9 million is attributable to plant, equipment and software purchases across New Zealand, Australia, the Americas and Europe.

As our business and energy requirements expand, so too is the scale and sophistication of our energy capture and storage infrastructure.

Our new Willawong facility in Queensland, Australia has been designed from the ground up, with a focus on our future energy requirements. Supported by on-site solar and battery storage, Willawong includes 480kW of on-dock fast charging, 480kW multi-vehicle charging station and eight 22kW AC chargers for smaller fleet vehicles.

As we incorporate smart charging infrastructure, renewables, and battery storage into our sites, Mainfreight branches around the world are becoming both freight hubs and energy stations.

GREG DE LA TOUR WITH OUR BATTERY ENERGY STORAGE SYSTEMS (BESS), WILLAWONG, AUSTRALIA

Approach to Sustainability

Our approach to sustainability is grounded in Mainfreight's long-term philosophy and our 100-year vision. To still be here 100 years from now requires decisions to be made through a different lens, one that ultimately serves the interests of our team, our customers, our communities, and our planet.

Transportation is an emissions intensive industry, and one that is not easily abated. However, it is also the lifeblood of the global economy, connecting companies to customers across the world. This creates a dilemma – how do we maintain healthy, functioning economies and build supply chains resilient to increasing disruption, but mitigate the emissions created in the process? Our view is that we must do it all, and all at once.

Recent international events are testing national and industrial assumptions in respect to our dependence on traditional sources of energy. Low-emission energy sources, including direct electrification and advanced biofuels, now present a compelling, diversified alternative to fossil fuels that can be produced almost anywhere. However, alternatives remain expensive and will require significant investment to meaningfully displace existing fuels, but the case for such investment has never been stronger.

Mainfreight continues to invest in renewable energy infrastructure. Internationally, our solar installations have reached over 12,000kW (up 28% on last year) and our Battery Energy Storage Systems (BESS) are now above 11,800kWh (up 21% on last year). Operationally, our forklift fleet is 89% electric (up from 86% on last year), and our small vehicle fleet is now 62% hybrid and electric (up from 54% last year).

Heavy fleet electrification remains challenging at just 1.5% of our fleet (up from 1.2%), yet we see promise in both the emerging technology and the increasing range of applications. Among the key enablers for broader fleet electrification is access to adequate charging infrastructure. Our new Willawong facility in Queensland, Australia will be our most advanced charging hub to date. Supported by solar and BESS, Willawong includes 480kW of on-dock fast charging, a further 480kW multi-vehicle charging station and 8 x 22kW AC small-fleet chargers.

Looking ahead, we expect to make further progress in electrification and fleet decarbonisation. We also continue to develop sustainable fuel offerings, including Sustainable Aviation Fuel (SAF), and a pilot for sustainable maritime fuels planned within the next year. Ultimately, collaboration with customers remains the most effective and rewarding pathway toward sustainable supply chains, and we will continue to pursue further opportunities in the year ahead.

We are pleased to present our Sustainability and Climate Report alongside our Annual Report to provide a detailed account of our work to date. Mainfreight Limited (together with its subsidiaries, the Mainfreight Group) is a Climate Reporting Entity (CRE) under the New Zealand Financial Markets Conduct Act 2013 (the Act). Readers will find our disclosures prepared in compliance with the Aotearoa Climate Standards within our Sustainability and Climate Report.

For our full Sustainability and Climate Report, please visit: www.mainfreight.com/global/en-nz/investor/reports-library/sustainability-information

GHG Emissions Inventory

For the 2026 financial year, we have recorded a modest 46,473 tonne reduction in gross CO2e emissions, representing a 2.8% decrease compared to 2025.

Improvements in efficiency and associated emission factors, particularly for air freight, have contributed to the reduction, despite an increase in freight task across all transport modes.

Previously, older data and the impacts of COVID-19 on air freight load factors contributed to elevated air freight emission factors that have now been updated. This reflects both better utilisation and a gradually modernising international fleet. The effect of SAF mandates is negligible in the recent update, but is expected to play a larger role in future iterations.

Sea freight has realised marginal improvements in trade-lane based emission factors, but a significant increase in volume has seen our sea-based emissions grow year on year. We continue to account for ongoing disruption in the Red Sea, which has increased the distance travelled by vessels on impacted routes, contributing approximately 10,000 tonnes of additional CO2e.

Rail has seen a notable uplift, attributable to a new method of accounting for the landside connections on international movements that were previously excluded. However, given rail's relative efficiency, we are strong advocates for greater use of this mode where it is available, and would tend to view growth in this category (where it reflects modal shift) as positive.

Road-based emissions would have been largely flat year on year, except for a shift toward more conservative emission factors for European road freight which added approximately 30,000 tonnes CO2e.

Overall, we are encouraged by continued reductions across each of our tracked intensity measures, reflective of business growth alongside a modest reduction in gross emissions.

Future performance will continue to balance our growth and market share capture against our capacity to find improvements in efficiency and pursue opportunities for decarbonisation.

Intensity Factors

DESCRIPTION	2026	2025	CHANGE
CO2e per tonne kilometre of Domestic Freight (Road / Rail / Inland Waterway)	0.083 kg	0.091 kg	-8.8%
CO2e per tonne kilometre of Air Freight	1.000 kg	1.199 kg	-16.6%
CO2e per TEU kilometre of Sea Freight	0.056 kg	0.058 kg	-3.4%

Emissions Sources (tonnes CO2e)

MODE/TYPE	2026	2025	CHANGE
Road	507,126	467,593	8.5%
Rail	17,817	9,092	96.0%
Inland Waterway	5,701	-	-
Air	820,789	942,542	-12.9%
Sea	181,634	161,689	12.3%
Total Freight Emissions	1,533,067	1,580,916	-3.0%
Operational Emissions	77,341	75,965	1.8%
Total Emissions	1,610,408	1,656,881	-2.8%

Note inland waterway (including ferry) has been listed separately in this year's report (previously in Sea)

Mainfreight Emissions (tonnes CO2e)

SCOPE	DESCRIPTION	2026	2025
Scope 1	Direct GHG Emissions	372,615	340,037
Scope 2	Indirect GHG Emissions from Purchased Energy	18,683	18,561
Scope 3	Other Indirect GHG Emissions	1,219,110	1,298,283
Total Emissions		1,610,408	1,656,881

To better align with new reporting requirements we have shifted our reporting standard from ISO 14064-1: 2018 to GHG Protocol. For a more detailed breakdown of Scope 3 Categories (upstream and downstream) please refer to our Sustainability and Climate Report, link above.

Every day we draw on the attitude and vision this business was built on.

We will continue to face challenges and find opportunities, the Mainfreight way.

By marrying our long-standing principles and values with sophisticated and progressive practices, we continue to build a resilient, enduring company. Our strategies for people, growth, quality and the future, are embedded in everything we do.

People

The past year has been one of focus and discipline, ensuring our people, roles and development efforts remain closely aligned to what the business needs in real time. There is a fine line between trying to do things differently, and doing things better. This year, the emphasis has been on reinforcing what already works – empowering the teams closest to the problem to make decisions quickly, maintaining momentum and thinking toward the future, whilst delivering high quality customer service every day.

Our strength comes from our worldwide network working together. Consistency matters. When teams stay connected and share what they are seeing, we all make better decisions. We solve problems faster, and identify opportunities sooner, keeping our business responsive and relevant for our customers.

Hiring remains a branch-led responsibility, and one of the most important roles of our Branch Managers. They understand that who we bring into the business shapes our future. Their task from a people perspective is clear – to hire the right people, involve them in improving how we operate – and give them the chance to build meaningful, long-term careers.

The strength of the business sits with our team. Responsibility for safety, risk, and execution is shared, with decisions made closest to the work. More deliberate use of data has helped teams identify risk earlier and have clearer conversations about how we operate safely and confidently. We continue to gather more data as the basis to deliver meaningful training to keep our people safe and healthy.

We focus our training on what matters most – staying close to our customers, being proactive, working alongside them through challenging times and maintaining the highest standards of health and safety in everything we do.

Looking ahead

Our focus remains on connectivity and consistency across the network – operating as one seamless business, with shared standards and a reliable Mainfreight experience whenever and wherever customers engage with us.

Recent years have tested businesses in ways few would have predicted. Those conditions forced us to sharpen how we think, how we respond and how quickly we move. Expecting the unexpected is now part of how we operate. In years to come, we will look back on this period with pride in how our people stepped up, worked together and delivered exceptional service in the face of unprecedented uncertainty.

Above all, it remains our people – connected, trusted, and prepared to act – who ensure Mainfreight continues to be a business built to last.

In 2026:

- > Mainfreight team members from over 14 countries completed a variety of training programmes, including Outward Bound, the Main Divide course and sales programmes. Developing capable people remains central to how we grow. Programmes delivered by our Training and Development teams, alongside longstanding external courses such as Outward Bound and the Main Divide, continue to challenge our people to better understand themselves, work effectively with others and return to the business with greater confidence and accountability.
- > Succession and future leadership depth are a conscious focus. By identifying talent early, and providing meaningful development and responsibility, we are building strong career pathways for our people, and long-term continuity for our business.
- > Our training efforts are increasingly aligned across the network. This shared approach is strengthening leadership capability, reinforcing common expectations and helping ensure our customers experience the same standards of service wherever they engage with Mainfreight.
- > Health and safety training courses and on the job information sharing has ensured safety has become a daily discipline. We continually use data to better understand risk and focus our efforts, ensuring safety is front of mind through regular, practical conversations led locally across our operations.

JOSH ILLSLEY, HANNAH SMITH AND ALICE ILLSLEY, COALVILLE, UNITED KINGDOM

Striving for better

We continue to invest in helping create a better future, both for our own teams and the communities we are part of around the world.

Books in Homes

Mainfreight has proudly supported the Duffy Books in Homes programme since its inception in 1994. We have focussed on helping to break the cycle of booklessness by ensuring children can choose, own and enjoy brand new books to foster a lifelong love of books and reading. In recent years, Mainfreight has helped more than 25,000 children annually to access new books in New Zealand. From January to December 2025, this support saw 48,594 books being delivered to children. Our support also extends to Books in Homes schools across Australia and USA.

Today, the Duffy programme reaches 551 schools in New Zealand, with 77% of high-equity schools matched to a committed funding partner. These partnerships are essential to supporting the children, whānau and communities that need it most, ensuring access to books and positive reading experiences remain strong.

We encourage more New Zealand businesses to be part of this programme. By scanning the QR code alongside, organisations can find a school seeking support, and consider supporting them to help strengthen literacy, learning and community wellbeing where it matters most.

Life Education Trust

Life Education Trust is a charity made up of 32 regional trusts across New Zealand. They are the largest health education provider in schools, and have been teaching children to embrace healthy choices for over 38 years. Mainfreight has been a partner for the last 18 years.

Along with their mascot Harold the Giraffe, their team of 45 registered teachers educate children about their body, relationships and communities, identity and resilience, food and nutrition, and helpful and harmful substances. The Healthy Harold programme reaches 86% of all primary and intermediate schools in New Zealand – teaching about 250,000 tamariki (children) and rangatahi (youths) each year.

Recently their work has broadened to include professional development programmes for teachers – a ‘coach the coaches’ approach. More than 2,000 teachers each year are taking part in programmes to upskill their professional teaching strategies, supported by Life Education Trust.

Both the Duffy Books in Homes and Life Education Trust charities remain important to us, and we provide significant funding to support their efforts to educate less privileged children.

“A child without books is like a bird without wings.”

Our Mainfreight teams all over the world also support community and charitable projects at a local level, with a wide variety of initiatives including fundraising events, hosting groups at our facilities and voluntary time commitments. It’s part of who we are.

BRUCE PLESTED CHAIRMAN AND FOUNDING OWNER

48 years with Mainfreight
Appointment to Board 1978
Shareholding at 31 March 2026: 14,927,062 shares*
Age: 84

As Chairman and Founder, Bruce shares his vision for the Company with the Mainfreight team, bringing a particular focus to quality and our culture. Likewise, his strongly-held beliefs relating to the importance of education, quality and recycling / sustainability, continue to positively shape the Company's behaviours.

KATE PARSONS INDEPENDENT DIRECTOR

Appointment to Board 2017
Shareholding at 31 March 2026: 1,500 shares*
Age: 53

Kate brings to the Board her broad financial and analytical experience acquired in a range of industries, both in New Zealand and overseas. Her knowledge of high-tech companies is a welcome addition to the Board's capabilities, as is her familiarity with the complexities of acquisitions, and steering companies through growth and change.

Other Current Directorships: NZME Limited, Entrada Travel Group Limited (and a number of subsidiary companies), Freedom Group Holdings Limited (and subsidiary), Grey Street Investments Ltd and private family companies.

BRYAN MOGRIDGE INDEPENDENT DIRECTOR

Appointment to Board 2003
Shareholding at 31 March 2026: 200,000 shares*
Age: 80

Bryan has a wealth of experience, both in executive and board roles. He has also lent his support to not-for-profit organisations such as the Starship Foundation. His intellect and pragmatic approach is highly regarded at the Board table.

Other Current Directorships and Trusteeships: Energy Education Trust and Massey University Foundation.

ANNIE STEEL INDEPENDENT DIRECTOR

Appointment to Board 2024
Shareholding at 31 March 2026: 1,530 shares*
Age: 42

Annie was born in Hong Kong and immigrated with her family when she was young. She is a partner for a corporate law firm, and has considerable experience across complex and challenging corporate transactions and strategic advisory engagements, including cross-border M&A activity. Annie's energy and commercial expertise, along with her trilingual background, is a welcome addition to the Board table.

Other Current Directorships: Harmos Horton Lusk Limited and private family and investment companies.

DON BRAID GROUP MANAGING DIRECTOR

32 years with Mainfreight
Appointment to Board 2000
Shareholding at 31 March 2026: 2,936,591 shares*
Age: 66

Don has over 49 years' experience in the freight industry, including 32 with Mainfreight. His leadership is underpinned by a strong belief in Mainfreight's international competency and capabilities to provide high-quality supply chain solutions for our customers. His visits to our local and overseas operations and customers guide our teams to be sales-focused and always aiming for operational excellence. He is fiercely proud of the Mainfreight culture – seeing this as a key reason customers choose Mainfreight over the competition.

SIMON COTTER INDEPENDENT DIRECTOR

Appointment to Board 2013
Shareholding at 31 March 2026: 80,000 shares*
Age: 59

Simon has a long association with Mainfreight having served as the Company's main adviser for acquisitions, debt structure and other matters since 2003 (through Grant Samuel & Associates, now named Clarien Partners Limited), prior to joining the Mainfreight Board. He brings strong financial skills and business acumen to the role.

Other Current Directorships: First Mortgage Trust.

HAYLEY BUCKLEY INDEPENDENT DIRECTOR

Appointment to Board 2024
Shareholding at 31 March 2026: 785 shares*
Age: 49

Hayley has broad commercial and capital markets experience, and has acted as lead counsel for a number of large companies in the transport and supply chain sector. Hayley's career includes time spent in London and the US, and she regularly advises on cross-border transactions. She is a member of the Institute of Directors of New Zealand and is an Alumnae of the Harvard Business School. Hayley's commercial acumen, energy and work ethic is of great assistance to the Board.

Other Current Directorships: The Snowball Effect Limited, Hammerforce Technology Limited.

*Number of shares are those held with beneficial interest. Additional detail for Director Shareholdings is provided under the Statutory Information section on page 99.

BOARD OF DIRECTORS AT MAINFREIGHT RAILWAY LANE, AUCKLAND, NEW ZEALAND

Corporate Governance

This statement is a summary of the Corporate Governance arrangements approved and observed by Mainfreight's Board of Directors ("the Board") as of 27 May 2026. The code of ethics, policies, charters and other associated documents are available on the Investor pages of the Company's website:

<https://www.mainfreight.com/global/en/global-home/investor-centre/governance.aspx>

Mainfreight have reported against the NZX Corporate Governance Code, dated 31 March 2026. Mainfreight's Corporate Governance practices do not materially differ from the NZX Corporate Governance Code, except that Mainfreight has not established a Nominations Committee, preferring to accomplish this task with the assistance of the full Board.

Also, Recommendation 2.9 of the NZX Corporate Governance Code ("the Code") states, "An issuer should have an independent chair of the Board". Mainfreight have not adopted this recommendation, however, are confident that its existing Board composition, including Mainfreight founder Bruce Plested, who has been chair of the Company since 2002, continues to provide effective oversight, decision making, accountability and compliance with regulatory requirements and principles. We continue to review this annually.

The Role of the Board of Directors

The Board is committed to the highest standards of ethical behaviour in its own undertakings, and those of the Group's team members. The Board follows the Corporate Governance rules established by the NZX, and Directors exercise their duties in the best interests of the Group. A formal charter has been adopted by the Board, and further sets out the responsibilities of Directors.

The Board is responsible for the proper direction and control of the Group's activities. This responsibility includes such areas of stewardship as the identification and control of the Group's business risks (including oversight of health and safety and sustainability

considerations), the integrity of management information systems and reporting to shareholders. While the Board acknowledges that it is responsible for the overall control framework of the Group, it recognises that no cost-effective internal control system will preclude all errors and irregularities. Our system is based upon written procedures, policies and guidelines, organisational structures that provide an appropriate division of responsibility, and the careful selection and training of all qualified personnel.

The Board includes in its decision making; dividend payments, the raising of new capital, major borrowings, the approval of half year and annual accounts, the provision of information to shareholders, major capital expenditure and acquisitions. The Board delegates the conduct of the day-to-day affairs of the company to the Group Managing Director and Executive Leadership team.

Financial statements are prepared monthly in conjunction with the weekly profit and loss statements generated at branch level. These are reviewed by the Board progressively throughout the year to monitor management's performance, and assess the integrity of management information.

Board Composition

The Board currently comprises seven Directors: our Chairman, Group Managing Director and five independent Directors.

Bryan Mogridge has signalled he will not seek re-election after his current term, effective July 2026.

We note that commentary included in the Code identifies tenure as a factor that may impact a Director's independence. Mainfreight values the contribution of its long-serving Directors, who have a depth of understanding and insight gained through extensive travel to the Company's international facilities and ongoing review of each business unit's progress toward meeting the Group's strategic goals. These relationships are actively reviewed to ensure that our Directors' independent judgement is not compromised.

PATRICK SPLERENBURG, ZALTBOMMEL, THE NETHERLANDS

Directors' Meetings

The Directors normally hold five full Board Meetings per year; with three of these held over two-to-three day periods in operational regions of interest and concern, providing the Board opportunities to meet with customers and our team. The other two meetings are shorter and held primarily to review performance and strategy. Additional meetings are held for the purposes of considering interim and final dividends, approving financial results for release to the market, or as otherwise required. From time to time, key executives are invited to attend full Board Meetings and are encouraged to fully participate in all debate.

The Board met on six occasions in the financial year ended 31 March 2026, in Auckland, New Zealand; Paris, France; Romania; Los Angeles, USA; and Brisbane, Australia.

The table below summarises Director attendance at Board and Committee meetings.

Share Trading

The Board has set out a procedure which must be followed by Directors and key Executive Management when trading in Mainfreight Limited shares. This procedure assists those persons to ensure

they comply with the insider trading provisions in the Financial Markets Conduct Act 2013. Mainfreight has adopted a blackout period whereby restricted persons (including Directors and Officers who have access to material information that other shareholders may not) are prohibited from trading in Mainfreight shares. This period runs from the close of trading of March and September month end until the trading day following results announcements to the NZX, and any other period that our Chief Financial Officer may specify from time to time.

Group Management Structure

The Group's organisational structure is focused on its core competencies; domestic transportation, international air and ocean freight forwarding, warehousing and supply chain management. These operations are located in New Zealand, Australia, the Americas, Europe and Asia. A country/region management structure exists to reflect the size and diversity of our international operations.

Our management structure is deliberately kept as flat and minimal as possible. This provides an ideal platform for succession planning, and enables for decision-making by those closest to our customers. We manage with a philosophy that encourages all to contribute.

Director	Board	Audit Committee	Remuneration Committee
Bruce Plested	5/6	–	1/1
Don Braid*	6/6	2/2	–
Simon Cotter	6/6	2/2	–
Bryan Mogridge	6/6	2/2	1/1
Kate Parsons	6/6	2/2	–
Hayley Buckley	6/6	–	–
Annie Steel	6/6	–	1/1

*Don Braid attends the Audit Committee by invitation

	THIS YEAR		LAST YEAR	
	Male	Female	Male	Female
Directors	4	3	4	3
Officers	9	0	9	0

Team Gender Ratios	THIS YEAR		LAST YEAR	
	Male	Female	Male	Female
New Zealand	78%	22%	78%	22%
Australia	73%	27%	72%	28%
Europe	72%	28%	75%	25%
Americas	67%	33%	59%	41%
Asia	38%	62%	39%	61%
Total Group	72%	28%	70%	30%

If we remove Owner Drivers and EU Drivers from the calculation, gender ratios are 65% Male and 35% Female (Last year 66% Male and 34% Female)

FEMALE MANAGERS (in roles with Profit & Loss responsibility)			
2026	72	2021	53
2025	67	2020	53
2024	73	2019	46
2023	63	2018	37
2022	54	2017	31

The number of key management roles held by females still falls well below our expectations, and we continue to look for improvement.

Diversity

Mainfreight is firmly committed to diversity and equality in all areas of its operations, and has included a gender breakdown across its full team in its Annual Reports for many years. The Group's Diversity Policy is available on our website.

At the level of Directors and Officers, gender composition is set out in the table on page 60:

Anti-Corruption and Competitive Practice Guideline

In an increasingly global economy, most countries have put in place anti-corruption and competition laws, which we at Mainfreight welcome and endorse.

Mainfreight has adopted guidelines and policies to enforce anti-corruption and anti-competitive behaviour which are available on our website.

The integrity of our brand, and the way we are perceived in the market, is of paramount importance to us. We demand that our team members act with honesty, integrity and have a scrupulously "clean" approach to the way we conduct our business.

The Role of Shareholders

The Board aims to ensure that shareholders are informed of all major developments affecting the Group's state of affairs. Information is communicated to shareholders in the Annual Report and twice-yearly newsletters, in addition to information released via the NZX and available on our website. The Board has adopted a continuous disclosure policy to assist Mainfreight to comply with its continuous disclosure obligations under the NZX Listing Rules. The Board encourages full participation of shareholders at the Annual Meeting to ensure a high level of accountability with the Group's strategies and goals. The company's Executive Leadership team will present at this year's Annual Meeting and will provide regional development information and strategy.

The Board has constituted the following standing Committees that focus on specified areas of the Board's responsibility. Each Committee operates under its own charter outlining composition and responsibilities.

Audit Committee

The Committee is responsible for the framework of internal control mechanisms that ensure proper management of the Group's affairs. The Committee is accountable to the Board for the recommendations of the external auditors, EY, directing and monitoring the audit function, and reviewing the adequacy and quality of the annual audit process.

The Committee provides the Board with additional assurance regarding the accuracy of financial information for inclusion in the Group's Annual Report, including the Financial Statements.

The Committee is also responsible for ensuring that the Group has an effective internal control and risk framework, and reviews all major risks including those escalated by Management. A member of the Group's finance team oversees regular internal control assessments, and reports to the Group Chief Financial Officer and the Audit Committee as appropriate.

These internal controls include the safeguarding of assets, maintaining proper accounting records, complying with legislation including resource management and health and safety issues, ensuring the reliability of financial information, and assessing and overseeing business risk.

The Committee also oversees and makes recommendations to the Board on the Climate-related Disclosure Report and deals with governmental and NZX compliance requirements.

Audit Committee:

Simon Cotter, Chairman
Bryan Mogridge, Director
Kate Parsons, Director

Remuneration Committee

The Committee is responsible for reviewing the remuneration and benefits of the Group Managing Director and senior executives, reviewing the remuneration of Board members and making recommendations to the Board. The Committee also monitors and reports on general trends and proposals concerning employment conditions and remuneration.

General remuneration for all team members is reviewed on an annual basis and takes into account CPI and responsibility changes for each individual. This does not include senior executives whose remuneration is reviewed every two years, and was last reviewed in October 2024.

The discretionary bonus system used by Mainfreight was applied during the financial period with Board approval. The bonus calculation is applied across all business units which meet the criteria, and only to those team members who have completed 12 months' continuous full-time service with Mainfreight. The total cost of this discretionary bonus for the 2026 financial year is \$46.3 million.

Remuneration Committee:

Bruce Plested, Chairman
Annie Steel, Director
Bryan Mogridge, Director

The Directors are pleased to present this 31st published Annual Report of Mainfreight Limited.

Financial Result

Consolidated sales for the year were \$5.4 billion, up on the previous year by \$147.1 million (2.8%).

Profit Before Tax for the year was \$350.9 million, down 8.5%.

Net profit for the 2026 financial year was \$251.0 million, down 8.5%.

Comparisons to the 2025 result are set out in the five-year review; page 102 of the financial statements.

Financial Position

The Group financial position remains stable, with shareholders' equity of \$2,140 million funding 48.6% of total assets. Earnings cover interest on debt 7.01 times, compared to 8.82 times in the prior year. Net cash flows from operations were \$589.4 million, up from \$584.4 million last year.

Dividend

A dividend of 87.0 cents per share was paid in July 2025, fully imputed. A supplementary dividend of 15.35 cents per share was paid to non-resident shareholders with this dividend. A further dividend of 85.0 cents per share was paid in December 2025, fully imputed. A supplementary dividend of 15.00 cents per share was paid to non-resident shareholders with this dividend.

A fully imputed dividend of 87.0 cents per share, payable on 17 July 2026 is proposed, together with a supplementary dividend of 15.35 cents per share for non-resident shareholders. Books close for this dividend on 9 July 2026.

Statutory Information

Additional information is set out on pages 98 to 101 including Directors' Interests as required by the Companies Act 1993.

Directors

Bryan Mogridge retires at the Annual Shareholders Meeting on 30 July 2026.

Directors' Remuneration

As mentioned in the 2025 Annual Report, the Directors' fees were increased on 1 April 2025 to \$150,000 per annum for each Director, and \$240,000 per annum for the Chairman of the Board, and are funded from the original pool of fees (\$904,000). The Chairman has for some time elected not to take his fee entitlement. The Remuneration Committee will continue to review the Directors' fees bi-annually.

Audit

The Company's Auditors, EY, will continue in office in accordance with the Companies Act 1993. The Company has a formally constituted Audit Committee.

Reporting and Communications

Mainfreight continues to support high levels of public company disclosure. The Company provides half-yearly reporting on results, with ongoing disclosure as required.

The Company is effective in communicating the Group's affairs and results to shareholders, NZX, regulatory bodies and the media. The first half-year result to 30 September 2026 is scheduled for release on 12 November 2026.

Outlook

The Directors are satisfied with the direction and development of the Group. The next twelve months will continue the developments that Mainfreight has underway, with the subsequent benefits to our shareholders and stakeholders.

For and on behalf of the Board, 30 June 2026.

BRUCE PLESTED, Chairman

SIMON COTTER, Director

DARNISHA CROCKETT, CHICAGO, USA

Notes to the Financial Statements

FOR THE YEAR ENDED 31 MARCH 2026

1 CORPORATE INFORMATION

The financial statements of Mainfreight Limited ("the Parent") and its subsidiaries ("the Group") for the year ended 31 March 2026 were authorised for issue in accordance with a resolution of the Directors.

Mainfreight Limited is a company limited by shares incorporated in New Zealand whose shares are publicly traded on the NZX Main Board (New Zealand Stock Exchange).

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES

(a) Basis of Preparation

The financial statements have been prepared in accordance with generally accepted accounting practice in New Zealand (NZ GAAP) and the requirements of the Companies Act 1993 and the Financial Markets Conduct Act 2013. The financial statements have been prepared:

- On a historical cost basis, except for land, and derivative financial instruments.
- On a GST exclusive basis, except for receivables and payables that are stated inclusive of GST.

(b) Statement of Compliance

The financial statements comply with New Zealand equivalents to International Financial Reporting Standards (NZ IFRS) and other applicable Financial Reporting Standards, as appropriate for profit-oriented entities. The financial statements comply with International Financial Reporting Standards (IFRS).

(c) Basis of Consolidation

The consolidated financial statements comprise the financial statements of Mainfreight Limited ("the Parent") and its subsidiaries (the "Group") as at 31 March each year (as outlined in note 11).

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

The financial statements of subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies. Income and expenses for each subsidiary whose functional currency is not New Zealand dollars are translated at exchange rates which approximate the rates at the actual dates of the transactions. Assets and liabilities of such subsidiaries are translated at exchange rates prevailing at balance date. All resulting exchange differences are recognised in the foreign currency translation reserve which is a separate component of equity.

In preparing the consolidated financial statements, all inter-company balances and transactions, income and expenses, and profit and losses resulting from intra-group transactions have been eliminated in full.

(d) Foreign Currency Translation

(i) Functional and Presentation Currency

The presentation currency of the Group is New Zealand dollars (\$) and all values are rounded to the nearest thousand dollars (\$000). Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

(ii) Transactions and Balances

All exchange differences in the consolidated financial statements are taken to the income statement with the exception of differences on foreign currency borrowings that provide a hedge against a net investment and differences arising on translation of a foreign operation. These are recognised in other comprehensive income and accumulated in reserves until disposal of the net investment at which time they are recognised in profit or loss. On disposal of a foreign operation, the cumulative amount recognised in equity relating to that particular foreign operation is recognised in the income statement. Tax charges and credits attributable to exchange differences on those borrowings are also recognised in equity.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

(iii) Hedges of a Net Investment

Hedges of a net investment in a foreign operation are accounted for by including the gains or losses on the hedging instrument relating to the effective portion of the hedge directly in equity while any gains or losses relating to the ineffective portion of the hedge are recognised in profit or loss.

(e) Changes in Accounting Policies

The accounting policies applied in the preparation of the consolidated financial statements are consistent with the prior year.

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group's financial statements are disclosed below. The Group intends to adopt these new and amended standards and interpretations, if applicable, when they become effective.

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

(f) New Accounting Standards and Interpretations

IFRS 18 Presentation and Disclosure in Financial Statements

In May 2024, the XRB issued NZ IFRS 18, which replaces NZ IAS 1 Presentation of Financial Statements. IFRS 18 introduces new requirements for presentation within the statement of profit or loss, including specified totals and subtotals. Furthermore, entities are required to classify all income and expenses within the statement of profit or loss into one of five categories: operating, investing, financing, income taxes and discontinued operations, whereof the first three are new.

It also requires disclosure of newly defined management-defined performance measures, subtotals of income and expenses, and includes new requirements for aggregation and disaggregation of financial information based on the identified 'roles' of the primary financial statements (PFS) and the notes.

In addition, narrow-scope amendments have been made to NZ IAS 7 Statement of Cash Flows, which include changing the starting point for determining cash flows from operations under the indirect method, from 'profit or loss' to 'operating profit or loss' and removing the optionality around classification of cash flows from dividends and interest. In addition, there are consequential amendments to several other standards.

NZ IFRS 18, and the amendments to the other standards, is effective for reporting periods beginning on or after 1 January 2027, but earlier application is permitted and must be disclosed. NZ IFRS 18 will apply retrospectively.

The Group is currently working to identify all impacts the amendments will have on the primary financial statements and notes to the financial statements.

IFRS 9 and IFRS 7 Amendments to the Classification and Measurement of Financial Instruments

In May 2024, the IASB issued Amendments to IFRS 9 and IFRS 7 (the Amendments).

The Amendments include:

- A clarification that a financial liability is derecognised on the 'settlement date' and the introduction of an accounting policy choice (if specific conditions are met) to derecognise financial liabilities settled using an electronic payment system before the settlement date,
- Additional guidance on how the contractual cash flows for financial assets with environmental, social, and corporate governance (ESG) and similar features should be assessed,
- Clarifications on what constitute 'non-recourse features' and what are the characteristics of contractually linked instruments
- The introduction of disclosures for financial instruments with contingent features and additional disclosure requirements for equity instruments classified at fair value through other comprehensive income (OCI).

The Amendments are effective for annual periods starting on or after 1 January 2026 with early adoption permitted for classification of financial assets and related disclosures only.

The Group is currently working to identify all impacts the amendments will have on the primary financial statements and notes to the financial statements.

(g) Revenue Recognition

In relation to freight transactions, the Group considers its sole performance obligation to be the delivery of freight to the final destination. Ancillary services such as customs clearance are not considered to be separate performance obligations. Instead, together with freight they represent a bundle of performance obligations.

The Group considers that the performance obligation is satisfied over time, and so will recognise the related revenue as the performance obligation is satisfied. In relation to Domestic Transport and Warehousing the stage of completion is to be measured relative to cost whereas in relation to Air and Ocean freight it will be measured relative to time.

Judgement is involved in determining the measure of cost and time on which to base the recognition of revenues at each reporting date.

Revenue has been disaggregated in note 5 by Domestic Transport, Warehousing and Air and Ocean forwarding.

3 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments, other than derivatives, comprise bank loans and overdrafts, cash and short-term deposits, trade creditors and accruals, other receivables, and trade debtors.

The main purpose of these financial instruments is to raise finance and provide working capital for the Group's operations.

The Group may enter into derivative transactions, principally interest rate swaps. The purpose is to manage the interest rate risks arising from the Group's operations and its sources of finance. These are not currently hedge accounted.

The main risks arising from the Group's financial instruments are cash flow interest rate risk, fair value interest rate risk, liquidity risk, foreign currency risk, and credit risk.

Details of the material accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial assets, financial liabilities and equity instruments are disclosed in notes 2 and 4 to the financial statements and other relevant notes.

3 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Cash Flow Interest Rate Risk

The Group's exposure to cash flow risk through changes in market interest rates relates primarily to the Group's long-term debt obligations with a floating interest rate. The level of debt is disclosed in note 15.

The Group's policy is to manage its interest cost using a mix of fixed and variable rate debt. To manage this mix in a cost-efficient manner, the Group enters into interest rate swaps, in which the Group agrees to exchange, at specified intervals, the difference between fixed and variable rate interest amounts calculated by reference to an agreed-upon notional principal amount. The Board decided not to enter into any swaps at this time (2025: nil). At 31 March 2026 none of the Group's borrowings are at a fixed rate of interest (2025: nil).

Fair Value Interest Rate Risk

If the Group holds fixed rate debt there is a risk that the economic value of a financial instrument will fluctuate because of changes in market interest rates. The level of fixed rate debt is disclosed in note 15 and it is acknowledged that this risk is a by-product of the Group's attempt to manage its cash flow interest rate risk. The Group is also exposed to fair value interest rate risk through the use of interest rate swaps. The Group accepts this risk as a by-product of its hedging strategy.

Interest on financial instruments classified as floating have their rates repriced at intervals of less than one year. Fixed rate instruments are fixed until the maturity of the instrument.

The Group regularly analyses its interest rate risk exposure. Within this analysis consideration is given to potential renewals of existing positions, alternative financing, and the mix of fixed and variable interest rates.

The following sensitivity analysis is based on the interest rate exposures in existence at the balance sheet date.

At 31 March 2026, if interest rates had moved, as illustrated in the table below, with all other variables held constant, post tax profit (including swap fair value movements) and equity would have been affected as follows:

	Post Tax Profit and Equity Higher (Lower)	
	2026 \$000	2025 \$000
+ 1.0% (100 Basis Points)	186	101
- 0.5% (50 Basis Points)	(93)	(50)

3 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Foreign Currency Risk

Foreign currency risk is the risk that the value of the Group's assets, liabilities and financial performance will fluctuate due to changes in foreign currency rates.

The Group is primarily exposed to currency risk as a result of its operations in Australia, America, Europe and Asia.

The risk to the Group is that the value of the overseas subsidiaries' financial positions and financial performances will fluctuate in economic terms and as recorded in the financial statements due to changes in overseas exchange rates.

Included in bank term loans at 31 March 2026 is a borrowing of EU€ Nil (2025 €1,700,000) which has been designated as a hedge of the net investments in the European subsidiaries. It is being used to hedge the Group's exposure to changes in exchange rates on the value of its net investments in Europe. Gains or losses on the retranslation of this borrowing are recognised in other comprehensive income to offset any gains or losses on translation of the net investments in the subsidiaries. A net after tax loss on the retranslation of the borrowing used to hedge the net investments of NZ nil (2025 net after tax loss \$245,079) was recognised in other comprehensive income for the period within the foreign currency translation reserve.

There is an economic relationship between the hedged item and the hedging instrument as the net investment creates a translation risk that will match the foreign exchange risk on the EUR borrowing. The Group has established a hedge ratio of 1:1 as the underlying risk of the hedging instrument is identical to the hedged risk component. Hedge ineffectiveness will arise when the amount of the investment in the foreign subsidiary becomes lower than the amount of the fixed rate borrowing.

	2026 AU\$000	2025 AU\$000
Net Assets Relating to Australian Subsidiaries Exposed to Currency Risk	480,939	445,943
	US\$000	US\$000
Net Assets Relating to American Subsidiaries Exposed to Currency Risk	155,038	166,194
	EU€000	EU€000
Net Assets Relating to European Subsidiaries Exposed to Currency Risk	184,301	177,692

Currency movements in the foreign denominated balances above are reflected in the foreign currency translation reserve.

The Group is exposed to currency risk in relation to trading balances denominated in other than the New Zealand dollar, principally by the trading of the Group's overseas businesses.

At 31 March 2026 the Group has the following monetary assets and liabilities denominated in other than the New Zealand dollar: 76% of trade accounts payable (2025 76%), 81% of trade accounts receivable (2025 80%), 98% of cash assets (2025 100%). These amounts are inclusive of the above balances held in foreign subsidiaries.

The following sensitivity is based on the foreign currency risk exposures in existence at the balance sheet date:

At 31 March 2026, had the New Zealand Dollar moved as illustrated in the table below with all other variables held constant, post tax profit and equity would have been affected as follows:

Judgements of reasonably possible movements:

		Post Tax Profit Higher / (Lower)		Equity Higher / (Lower)	
		2026 NZ\$000	2025 NZ\$000	2026 NZ\$000	2025 NZ\$000
NZD/AUD	+10%	(9,212)	(7,463)	(55,103)	(44,885)
NZD/AUD	-10%	11,247	9,122	67,348	54,861
NZD/USD	+10%	(679)	(2,316)	(29,071)	(34,097)
NZD/USD	-10%	831	2,827	35,531	41,674
NZD/EURO	+10%	(2,617)	(4,001)	(33,590)	(31,397)
NZD/EURO	-10%	3,200	4,891	41,054	38,377

The movement in equity is a combination of movement in post-tax profit and the movement in the foreign currency translation reserve as values of overseas investments in subsidiaries change.

Management believes the balance date risk exposures are representative of the risk exposure inherent in the financial instruments.

3 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Credit Risk

In the normal course of business, the Group is exposed to credit risk from financial instruments including cash, trade debtors, other receivables and derivative financial instruments. The carrying amounts of these financial instruments represent the maximum exposure to credit risk.

Receivable balances are monitored on an ongoing basis with the result that, in management's view, the Group's exposure to bad debts is not significant. The Group does not have concentrations of credit risk by industry but does have concentrations by geographical sectors (refer to Segment Reporting in note 5).

With respect to credit risk arising from the other financial assets of the Group, which comprise cash and cash equivalents, and certain derivative instruments, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments. The Group has a policy only to deal with registered banks or financial institutions with high quality credit ratings.

It is the Group's policy that customers considered higher risk who wish to trade on credit terms are subject to credit verification procedures including an assessment of their independent credit rating, financial position, past experience and industry reputation. Credit risk is regularly monitored for each individual customer by senior management in accordance with parameters set by the Board.

Liquidity Risk

Liquidity risk represents the Group's ability to meet its contractual obligations. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, bank loans, and asset finance loans. The Board considers that, in general, the Group has sufficient cash flows from operating activities to meet their obligations. If there are projected shortfalls, management ensures adequate committed finance is available.

At 31 March 2026, \$11,619,000 of the Group's debt will mature in less than one year (2025: \$11,198,000).

The table below reflects all contractually fixed payments and receivables for settlement, repayments and interest resulting from recognised financial assets and liabilities, including derivative financial instruments as of 31 March 2026. The respective undiscounted cash flows for the respective upcoming fiscal years are presented. Cash flows for financial assets and liabilities without fixed amount or timing are based on the conditions existing at 31 March 2026.

The remaining contractual maturities of the Group's financial liabilities are:

	2026 Year NZ(\$000)				
	<6 months	6-12 months	1-2 years	2-5 Years	Total
Term Loan	2,837	2,837	5,674	111,319	122,667
Lease Liability	151,174	151,174	307,974	915,640	1,525,962
Creditors	589,655	-	-	-	589,655
Asset Finance Loans	6,606	6,606	13,212	15,530	41,954
TOTAL	750,272	160,617	326,860	1,042,489	2,280,238

	2025 Year NZ(\$000)				
	<6 months	6-12 months	1-2 years	2-5 Years	Total
Term Loan	3,533	3,533	7,067	131,605	145,738
Lease Liability	126,683	126,683	259,343	828,914	1,341,623
Creditors	513,452	-	-	-	513,452
Asset Finance Loans	6,630	6,630	12,062	21,304	46,626
TOTAL	650,298	136,846	278,472	981,823	2,047,439

At balance date, the Group has approximately \$409.6 million (2025: \$379 million) of unused credit facilities available for its immediate use.

Fair Value

The Group uses various methods in estimating the fair value of assets carried at fair value. The methods comprise:

Level 1: the fair value is calculated using quoted prices in active markets,

Level 2: the fair value is estimated using inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices),

Level 3: the fair value is estimated using inputs for the asset or liability that are not based on observable market data.

The methods for estimating fair value are outlined in the relevant notes to the financial statements. Refer to note 12.

4 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

In applying the Group's accounting policies, management continually evaluates judgements, estimates and assumptions based on experience and other factors, including expectations of future events that may have an impact on the Group. All judgements, estimates and assumptions made are believed to be reasonable based on the most current set of circumstances available to management. Actual results may differ from the judgements, estimates and assumptions and the differences may be material. Significant judgements, estimates and assumptions made by management in the preparation of these financial statements are discussed within the specific accounting policy or note as shown below:

Area of Judgement	Note
Estimation of Land Valuation	12
Timing of Revenue Recognition	2

5 SEGMENTAL REPORTING

An operating segment is a component of an entity that engages in business activities from which it may earn revenues and incur expenses whose operating results are regularly reviewed by the entity's chief operating decision maker and for which discrete financial information is available.

The Group operates in the domestic supply chain (i.e. moving and storing freight within countries) and air and ocean freight industries (i.e. moving freight between countries).

New Zealand, Australia, The Americas, Asia and Europe are each reported to management as separate segments as the businesses there perform both domestic and air and ocean services.

The accounting policies of the operating segments are the same as those described in note 2 with the exception of deferred tax and the fair value of derivative financial instruments which are not reported on a monthly basis.

The segmental results from operations are disclosed below.

Geographical Segments

The following table represents revenue, margin and certain asset information regarding geographical segments for the years ended 31 March 2026 and 31 March 2025.

Year Ended 31 March 2026	New Zealand NZ\$000	Australia NZ\$000	The Americas NZ\$000	Asia NZ\$000	Europe NZ\$000	Inter- Segment NZ\$000	Total NZ\$000

5 SEGMENTAL REPORTING (CONTINUED)

Division Segments

The following table represents revenue and PBT regarding the three main types of services for the years ended 31 March 2026 and 31 March 2025.

Year Ended 31 March 2026	Domestic Transport NZ\$000	Warehousing NZ\$000	Air & Ocean Forwarding NZ\$000	Total NZ\$000
Revenue	2,492,919	909,777	1,980,824	5,383,520
PBT	154,706	61,207	134,981	350,894
PBT to Revenue Margin – ROR	6.2%	6.7%	6.8%	6.5%

Year Ended 31 March 2025	Domestic Transport NZ\$000	Warehousing NZ\$000	Air & Ocean Forwarding NZ\$000	Total NZ\$000
Revenue	2,262,861	865,364	2,108,212	5,236,437
PBT	169,788	63,592	150,198	383,578
PBT to Revenue Margin – ROR	7.5%	7.3%	7.1%	7.3%

Reconciliation between non-GAAP and the Income Statement

	2026 NZ\$000	2025 NZ\$000
Profit Before Taxation for the Year	350,894	383,578
Finance Costs Relating to Lease Liabilities	50,187	40,105
Other Net Finance Costs	8,227	8,970
EBITA	409,308	432,653
Depreciation of Right of Use Assets	235,700	221,223
Other Depreciation and Amortisation Expenses	114,818	107,639
EBITDA (adjusted)	759,826	761,515

EBITDA (adjusted) is defined as earnings before net interest expense, tax, depreciation, amortisation and royalties.

There are no customers in any segment that comprise more than 10% of that segment's revenue.

Bank term loan is allocated based on segment net assets excluding bank term loan.

The geographical segments are determined based on the location of the Group's assets.

Net Gain / (Loss) on Disposal of Property, Plant & Equipment	362	5,424

* EY are independent of the Group in accordance with Professional and Ethical Standard 1 "International Code of Ethics for Assurance Practitioners" (including International Independence Standards) (New Zealand) issued by the New Zealand Auditing and Assurance Standards Board, as applicable to audits of financial statements of public interest entities, and they have fulfilled their other ethical responsibilities in accordance with these requirements – refer Auditor's Report pages 94-97.

Simon O'Connor, the current EY audit partner, was appointed 28 June 2023.

** Sustainability reporting assurance services represents limited assurance engagement performed over the Group's greenhouse gas emissions in New Zealand and Australia

*** No donations to political parties were made in either year.

7 INCOME TAX

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the current period's taxable income. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date.

Deferred income tax is generally provided on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

The OECD/G20 Inclusive Framework on BEPS addresses tax challenges from digitalisation of the global economy. The Pillar Two model rules apply a 15% global minimum tax to multinational enterprises (MNEs) with annual revenue over EUR750 million. These rules have been enacted in several countries in which the Group operates, including the Netherlands, Belgium, Australia, and others, effective from 1 January 2024 and New Zealand, where the Group is head quartered, from 1 January 2025. The Group qualifies as a MNE under these rules.

The Group has adopted amendments to NZ IAS 12 Income Tax, effective 10 August 2023, which includes:

- A temporary exception to the recognition and disclosure of deferred taxes from Pillar Two rules.
- Disclosure requirements to help users understand the Group's exposure to Pillar Two income taxes.

The Group has assessed its potential exposure to Pillar Two taxes based on 2025 and 2026 financial information including the transitory safe harbours rules.

As a result, the effective tax rates in significant jurisdictions where the Group operates are above 15%, so no significant current tax impact is expected from Pillar Two rules for the year ended 31 March 2026 (2025 Nil).

The Group will continue to monitor Pillar Two legislative developments to evaluate future impacts on its consolidated financial position, and cash flows.

8 DIVIDENDS PAID AND PROPOSED

	2026 NZ\$000	2025 NZ\$000
Recognised Amounts		
Declared and Paid During the Year to Parent Shareholders		
Final Fully Imputed Dividend for 2025: 87.0 cents (2024: 87.0 cents)	87,608	87,608
Interim Fully Imputed Dividend for 2026: 85.0 cents (2025: 85.0 cents)	85,594	85,594
	173,202	173,202
Unrecognised Amounts		
Final Fully Imputed Dividend for 2026: 87.0 cents (2025: 87.0 cents)	87,608	87,608

After the balance date, the above unrecognised dividends were approved by Directors' resolution dated 27 May 2026. These amounts have not been recognised as a liability in 2026 but will be brought to account in 2027.

9 EARNINGS PER SHARE

Basic earnings per share is calculated as net profit attributable to members of the Parent (other than dividends), divided by the weighted average number of ordinary shares.

There was no dilution of earnings per share in 2026 (nil 2025).

The following reflects the income used in the basic and diluted earnings per share computations:

Net profit from continuing operations attributable to ordinary equity holders of the Parent.

	2026 NZ\$000	2025 NZ\$000
For Basic and Diluted Earnings Per Share		
Net Profit Attributable to Ordinary Equity Holders of the Parent	251,002	274,341
Weighted Average Number of Shares	Thousands	Thousands
Weighted Number of Ordinary Shares for Basic Earnings Per Share	100,699	100,699
	Cents	Cents
Basic and Diluted Earnings Per Share: Total Operations	249.26	272.44

10 CURRENT ASSETS – TRADE DEBTORS

Trade debtors are non-interest bearing and are generally on 7-30 day terms. They are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less an allowance for impairment.

Collectability of trade debtors is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified.

The Group applies a simplified approach in calculating expected credit losses. Therefore the group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime expected credit losses at each reporting date. This is based on historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. Trade debtors are written off as bad debts when all avenues of collection have been exhausted. Due to the short-term nature of debtors their carrying values is assumed to approximate fair value.

	2026 NZ\$000	2025 NZ\$000
Trade Debtors	757,575	649,696
Allowance for Impairment Loss	(9,296)	(8,936)
	748,279	640,760
Movements in the allowance for impairment were as follows:		
Balance at 1 April	8,936	7,367
Charge for the Year	9,554	4,580
Amounts Written Off	(9,194)	(3,011)
Balance at 31 March	9,296	8,936

At 31 March, the ageing analysis of trade debtors is as follows:

NZ\$000	Total	0-30 Days	31-60 Days	61-90 Days PDNI*	61-90 Days CI#	+91 Days PDNI*	+91 Days CI#
2026	757,575	586,564	122,768	20,940	515	18,005	8,781
2025	649,696	511,007	107,869	13,536	1,474	8,348	7,462

* Past due not impaired (PDNI)

Considered Impaired (CI)

Credit risk management policy is disclosed in note 3.

The maximum exposure to credit risk is the fair value of trade debtors. Collateral is not held as security, nor is it the Group's policy to transfer or factor receivables.

12 NON-CURRENT ASSETS – PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment, except land, is stated at historical cost less accumulated depreciation and any accumulated impairment losses. Such cost includes the cost of replacing parts that are eligible for capitalisation when the cost of replacing the parts is incurred. All other repairs and maintenance are recognised in the income statement as incurred.

Land is measured at fair value, based on valuations by external independent valuers who apply the International Valuation Standards Committee International Valuation Standards, less any impairment losses recognised after the date of the revaluation. Land is revalued at least every three years with the last valuations done as at 31 March 2024.

Depreciation is calculated on a straight-line basis at rates calculated to allocate the assets' cost, less estimated residual value, over their estimated useful lives as follows:

	Per annum		Per annum
Land	not depreciated	Leasehold Improvements	10% or life of lease if shorter
Buildings	1.33% to 3.00%	Plant, Vehicles & Equipment	8% to 36%

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance date.

Disposal

An item of property, plant and equipment is de-recognised upon disposal or when no further future economic benefits are expected from its use or disposal.

(a) Reconciliation of Carrying Amounts at the Beginning and End of the Year

Year Ended 31 March 2026	Land NZ\$000	Buildings NZ\$000	Leasehold Improvements NZ\$000	Plant, Vehicles & Equipment NZ\$000	Leased Plant, Vehicles & Equipment NZ\$000	Work in Progress *** NZ\$000	Total NZ\$000

Cost or Fair Value	611,783	764,591	139,807	617,319	90,009	170,876	2,394,385
Accumulated Depreciation	–	(212,536)	(47,175)	(339,866)	(42,872)	–	(642,449)
Net Carrying Amount	611,783	552,055	92,632	277,453	47,137	170,876	1,751,936

At 31 March 2024 independent registered valuers performed a valuation of the Group's land and buildings.

A summary of the 2024 valuations are:

Registered Valuer	Country	Weighted Average Capitalisation Rate	Valuation 2024
Extensor Advisory Ltd	New Zealand	5.94%	NZ\$713,705,000
Jones Lang LaSalle	Australia	5.37%	AU\$441,500,000
DTZ Zadelhoff V.O.F.	Netherlands	8.19%	EU€23,110,604
DTZ Zadelhoff BE	Belgium	7.54%	EU€30,896,683
Galtier Expertise	France	7.25%	EU€4,260,285
Nica Violeta Cornelia	Romania	8.73%	EU€12,012,595
Group Total			NZ\$1,383,538,067

The element of this valuation related to land has been recorded in the financial statements resulting in the revaluation of land by \$335,797,000 (2025 \$321,768,000) above cost. In addition a deferred tax liability of \$54,196,000 (2025 \$50,087,000) was recorded resulting in a revaluation reserve of \$281,601,000 (2025 \$271,681,000)

The element of this valuation related to buildings has not been recorded in the financial statements. If it had been recorded a revaluation in buildings of \$262,982,000 (2025 \$252,530,000) would have occurred. In addition, a deferred tax liability of \$22,500,000 (2025 \$21,207,000) would have needed to be recorded resulting in an increase in the revaluation reserve of \$240,483,000 (2025 \$231,323,000)

In determining the fair value of land, the valuers have considered relevant general and economic factors and in particular have investigated recent sales and leasing transactions of comparable properties that have occurred in the relevant locations within which the assets sit. The valuers have used two principal approaches which are a capitalisation analysis and a direct comparison approach. The valuations of land have been determined using the direct comparison approach to value each parcel of land and as a result these are considered level 2 valuations.

Included in the Group book values above but not in the valuations are Leasehold Improvements of \$119,884,000 (2025 \$91,057,000).

There was no properties held for sale included in these valuations (2025 nil).

Leased plant, vehicles and equipment is pledged as security for the related asset finance loans.

12 NON-CURRENT ASSETS – PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

(b) Carrying Amounts if Land Was Measured at Cost Less Accumulated Impairment

If Land, excluding properties for sale, was measured using the cost model the carrying amounts would be as follows:

	2026 NZ\$000	2025 NZ\$000
Cost	300,714	290,015
Accumulated Impairment	–	–
Net Carrying Amount	300,714	290,015

13 NON-CURRENT ASSETS – INTANGIBLE ASSETS AND GOODWILL

(i) Goodwill

Goodwill acquired in a business combination is initially measured at cost being the excess of the cost of the business combination over the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities.

Following initial recognition, goodwill is measured at cost and tested annually for impairment.

(ii) Intangible Assets

Intangible assets acquired separately or in a business combination are initially measured at cost. The cost of an intangible asset acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is recognised in the income statement in the year in which the expenditure is incurred.

(iii) Software

The Group uses both internal and external resources to develop software. An intangible asset arising from expenditure on an internal project is recognised only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the development and the ability to measure reliably the expenditure attributable to the intangible asset during its development. Following the initial recognition of the expenditure, the cost model is applied requiring the asset to be carried at cost less any accumulated amortisation and accumulated impairment losses. Any expenditure so capitalised is amortised over the period of expected benefit from the related project.

A summary of the policies applied to the Group's software assets is as follows:

Amortisation method used:

Amortised over the period of expected future benefit from the related project on a straight line basis generally from three to ten years.

Internally generated or acquired:

Both.

13 NON-CURRENT ASSETS – INTANGIBLE ASSETS AND GOODWILL (CONTINUED)

(b) Impairment Tests for Goodwill

(i) Description of the cash generating units and other relevant information

Goodwill acquired through business combinations have been allocated to seven groups of cash generating units (CGU's) for impairment testing.

The recoverable amount per CGU has been determined based on a value in use calculation using cash flow projections based on financial forecasts approved by senior management covering a five year period. The post-tax discount rate applied to cash flow projections per CGU and long-term growth rates used per CGU are as follows:

Impairment testing has indicated significant headroom across all CGU's in the prior period and given the EBITDA trends compared to previously forecasted, the Group has relied on the most recent (March 2025) detailed impairment testing calculation of the recoverable amount for all CGU's in assessing impairment for the current year. Based on an analysis of events that have occurred and circumstances that have changed since the most recent recoverable amount calculation, the likelihood of impairment is considered remote.

	2026 Post-Tax % Discount Rate	2025 Post-Tax % Discount Rate	2026 Long-Term % Growth Rate	2025 Long-Term % Growth Rate

Asia	7.25%	7.25%	2.45%	2.45%
Europe	6.96%	6.96%	3.95%	3.95%

(ii) Carrying amount of goodwill allocated to each group of cash generating units

	2026 NZ\$000	2025 NZ\$000
New Zealand Domestic	12,215	12,215
New Zealand Air & Ocean	8,551	8,549
Australian Domestic	5,957	5,549
Australian Air & Ocean	18,425	16,999
Americas	79,984	80,176
Asia	10,251	10,251
Europe	107,167	101,470
	242,550	235,209

(iii) Key assumptions used in value in use calculations for cash generating units (CGU's)

The calculation of value in use for all CGU's is most sensitive to the following assumptions; EBITDA (adjusted), discount rates and growth rates used.

EBITDA (adjusted) is based on forecasts.

Discount rates reflect management's estimate of the time value of money and the risks specific to each unit.

For the purposes of impairment testing a terminal growth rate has been used for all segments based on the long-term industry and country averages.

(iv) Sensitivity to changes in assumptions

With regard to the assessment of the value in use for all CGU's, management believes that no reasonably possible change in any of the above key assumptions would cause the carrying values of the units to materially exceed its recoverable amount.

14 EMPLOYEE ENTITLEMENTS

(i) Long Service Leave

Consideration is given to expected future wage and salary levels, experience of employee departures, and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currencies that match, as closely as possible, the estimated future cash outflows.

	Current		Non-current	
	2026 NZ\$000	2025 NZ\$000	2026 NZ\$000	2025 NZ\$000
Annual Leave	69,287	57,037	-	-
Bonus Accrual	46,306	30,462	-	-
Long Service Leave	19,643	18,124	4,312	4,331
Defined Benefit Pension Scheme	-	-	350	395
Other	-	-	116	134
	135,236	105,623	4,778	4,860

15 INTEREST-BEARING LOANS AND BORROWINGS

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings. Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Borrowing Costs

Borrowing costs are recognised as an expense when incurred unless funding costs have been incurred which are directly attributable to the acquisition, construction, or production of a qualifying asset in which case funding costs are included within the cost of the asset. Capitalisation of borrowing costs cease when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete. Borrowing costs of \$424,383 were capitalised in 2026 (2025 \$2,046,888). The capitalisation average rate was 3.91% (2025 6.14%).

The loans are identified as follows:

	2026 NZ\$000	2025 NZ\$000
Bank Term Loans	99,970	124,538
Asset Finance Loans	35,579	40,440
	135,549	164,978

Presented in the balance sheet as:

	2026 NZ\$000	2025 NZ\$000
Current Asset Finance Loans	11,619	11,198
Non-current Asset Finance Loans	23,960	29,242
Non-current Bank Loan	99,970	124,538
	135,549	164,978

A long-term revolving facility of NZ\$100,000,000 (2025 NZ\$85,000,000) with the Westpac Banking Corporation (Westpac) was established on 6 June 2014 expiring on 4 April 2030 (2025 4 April 2028).

A long-term revolving facility of NZ\$65,000,000 (2025 NZ\$65,000,000 plus EU€15,000,000) with the Commonwealth Bank of Australia (CBA) was established on 6 June 2014 expiring on 4 April 2030 (2025 4 April 2028).

A long-term revolving facility of NZ\$120,000,000 (2025 NZ\$110,000,000 plus EU€13,000,000) with the Hongkong and Shanghai Banking Corporation (HSBC) was established on 5 June 2014 expiring on 4 April 2030 (2025 4 April 2028).

A long-term revolving facility of EU€50,000,000 with ING Belgium NV/SA (ING) was established on 15 August 2017 expiring on 4 April 2030 (2025 4 April 2028).

A long-term revolving facility of NZ\$100,000,000 with the Bank of China (BOC) was established on 25 July 2019 expiring on 4 April 2030 (2025 4 April 2028).

A New long-term revolving facility of NZ\$25,000,000 with the ING Bank (Australia) (ING) was established on 31 July 2025 expiring on 31 July 2030.

All facilities operate under a negative pledge and cross company guarantee.

15 INTEREST-BEARING LOANS AND BORROWINGS (CONTINUED)

The facilities allow the borrowing Group to offset deposits against borrowings when calculating indebtedness for covenant compliance.

These loan facilities are at a floating interest rate. Banking covenants remain unchanged. Debt approximates fair value due to the floating nature of current drawdowns.

Interest was payable during the year at the average rate of 4.99% per annum (2025 5.92%).

The Asset Finance Loans relate to the financing of vehicles, and are typically repayable in equal instalments over 5 to 7 years. Finance charges are recognised as an expense in profit or loss.

16 LEASES

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

Property leases are often negotiated with rights of renewal in order that we have flexibility in location and size of premises to cater for future growth; whilst ensuring certainty of future tenure.

At balance date the Group had the following Right of Use Assets and Lease Liabilities:

	Right of Use Assets 2026 NZ\$000	Right of Use Assets 2025 NZ\$000	Lease Liabilities 2026 NZ\$000	Lease Liabilities 2025 NZ\$000
Opening Book Value	1,104,608	975,726	(1,182,011)	(1,024,399)

Non-current	1,049,692	987,989
	1,294,066	1,182,011

17 CONTRIBUTED EQUITY

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

	2026 Shares	2025 Shares	2026 NZ\$000	2025 NZ\$000
Authorised, Issued and Fully Paid Up Capital Ordinary shares	100,698,548	100,698,548	85,821	85,821

Ordinary shares do not have a par value.

All ordinary shares have equal voting rights and share equally in dividends and any surplus on winding up to the extent that they are paid up.

Capital Management

When managing capital, the Board of Directors' (the "Board") objective is to ensure the entity continues as a going concern as well as to maintain optimal returns to shareholders and benefits to other stakeholders. The Board also aims to maintain a capital structure that ensures the lowest cost of capital available to the entity. The capital structure of the Group consists of shareholders' equity and debt.

The Board is periodically reviewing and adjusting the capital structure to take advantage of favourable costs of capital. As the market is constantly changing, the Board may change the amount of dividends to be paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Board has no current plans to issue further shares on the market.

The Board monitors capital through the Group gearing ratio (net debt / net debt and equity).

	2026 NZ\$000	2025 NZ\$000
Total Borrowings (excluding lease liabilities)	135,549	164,978

European Other Guarantees	8,678	7,780
European Government Licencing Guarantees	1,236	1,170
	10,504	9,530

The Group is party to sub-lease / tenancy agreements where third parties lease excess office / industrial space from the Group. In the event of default by third parties the Group would be exposed to these liabilities.

As a result of the IRD's programme of routine and regular tax audits, the Group anticipates that IRD audits may occur in the future. The Group is similarly subject to routine tax audits in certain overseas jurisdictions. The ultimate outcome of any future tax audits cannot be determined with an acceptable degree of reliability at this time. Nevertheless, the Group believes that it is making adequate provision for its taxation liabilities. However, there may be an impact to the Group if any revenue authority investigations result in an adjustment that increases the Group's taxation liabilities.

The Group can also be subject to legal claims as a result of conducting business. The ultimate outcome of any future legal claims cannot be determined with an acceptable degree of reliability at this time. Nevertheless, the Group believes that it is making adequate provision for its legal liabilities. However, there may be an impact to the Group if any legal cases result in an adjustment that increases the Group's legal liabilities.

22 SUBSEQUENT EVENTS

A dividend of 87.0 cents per share was declared on 27 May 2026 totalling \$87,607,737. Payment date is to be 17 July 2026.

Independent auditor’s report to the shareholders of Mainfreight Limited

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Mainfreight Limited (the “Company”) and its subsidiaries (together the “Group”) on pages 65 to 93, which comprise the consolidated balance sheet of the Group as at 31 March 2026, and the consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated cash flow statement for the year then ended of the Group, and the notes to the consolidated financial statements including material accounting policy information.

In our opinion, the consolidated financial statements on pages 65 to 93 present fairly, in all material respects, the consolidated financial position of the Group as at 31 March 2026 and its consolidated financial performance and cash flows for the year then ended in accordance with New Zealand Equivalents to International Financial Reporting Standards and International Financial Reporting Standards.

This report is made solely to the Company’s shareholders, as a body. Our audit has been undertaken so that we might state to the Company’s shareholders those matters we are required to state to them in an auditor’s report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company’s shareholders, as a body, for our audit work, for this report, or for the opinions we have formed.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (New Zealand). Our responsibilities under those standards are further described in the *Auditor’s responsibilities for the audit of the financial statements* section of our report. We are independent of the Group in accordance with Professional and Ethical Standard 1 *International Code of Ethics for Assurance Practitioners (including International Independence Standards) (New Zealand)* issued by the New Zealand Auditing and Assurance Standards Board as applicable to audits of financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with Professional and Ethical Standard 1.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Ernst & Young provides taxation compliance services, taxation advisory services, financial statement preparation services and other assurance related services to the Group. Partners and employees of our firm may deal with the Group on normal terms within the ordinary course of trading activities of the business of the Group. We have no other relationship with, or interest in, the Group.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, but we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor’s responsibilities for the audit of the financial statements* section of the audit report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Revenue Recognition

Why significant

The Group recognised revenue totalling \$5.4 billion for the year in the consolidated income statement.

Under New Zealand equivalents to International Financial Reporting Standard 15: *Revenue from Contracts with Customers* (“NZ IFRS 15”), an entity must recognise revenue with respect to the performance obligations it has identified within its contracts with customers.

Mainfreight has determined it meets performance obligations in its customer contracts over time. There is judgement involved in assessing the stage of completion and therefore the amount of revenue recognised. This is particularly relevant to the Air & Ocean Forwarding businesses for which delivery times are longer than for other revenue streams and the transactions are therefore more likely to span year end.

The Group bills for these services at different points in time depending on the nature of the service and then adjusts to record revenue in the correct period.

Revenue recognition is a key audit matter as, collectively, material revenue transactions can occur close to year end and there is a risk that revenue is recognised in the incorrect period.

Disclosures related to the Group’s revenue are included in note 2 and note 5 to the consolidated financial statements.

How our audit addressed the key audit matter

In obtaining sufficient audit evidence in respect of revenue recognised:

- We evaluated the Group’s practices in respect of the timing of providing the service, timing of billing and when revenue is recognised in accordance with NZ IFRS 15;
- We tested a sample of revenue transactions recorded near year end to assess whether they were recorded in the correct period. This included considering shipping or other documentation indicating the timing of shipment;
- Performed a three-way correlation between revenue, receivables, and cash to support that revenue is being appropriately recorded as well as identify and test unusual transactions in the revenue process;
- We completed analytical procedures considered against expectations over reported margins for the year;
- We analysed credit notes issued after year end to assess whether these could significantly impact revenue recognised within current financial year;
- We performed testing of manual journal entries recognised within revenue near year end; and,
- We considered the adequacy of revenue disclosures in the consolidated financial statements.

Group audit planning and co-ordination

Why significant	How our audit addressed the key audit matter
<p>Mainfreight is an international business with 78% of the Group's revenue being generated in countries other than New Zealand.</p> <p>A significant area of focus when conducting the audit was assessing that sufficient audit evidence was obtained by each component audit team to enable us to reach our opinion on the consolidated financial statements as a whole. This was both with respect to the determination and allocation of materiality as well as the determination of the nature and extent of procedures to be performed by each component audit team.</p>	<p>As the coordinating primary team ("group audit team"), EY New Zealand performed risk assessment for the Group (incorporating feedback from component teams). The group audit team considered risks of material misstatement to the Group financial statements to determine the accounts and level of work assigned to each component team in significant locations. Consideration was given to the nature, size and risks associated with each of the group's significant businesses and the results of our risk assessment analytical procedures performed.</p> <p>As a result of this assessment, each business was allocated specific accounts and scope reflecting the extent of audit procedures required.</p> <p>The group audit team communicated to the component audit teams significant risk areas to be considered and the information to be reported back to the group audit team. The component and group audit teams then determined the extent and nature of audit procedures to be performed.</p> <p>To obtain sufficient coverage of group balances, the group audit team performed centralised testing over certain accounts and performed work in relation to number of smaller business units.</p> <p>All component teams provided written confirmation to the group audit team summarising the results of their work including any significant findings or observations. In addition, the Group audit team had regular communications with the component audit teams and reviewed certain workpapers responding to risk areas.</p> <p>Members of the group audit team visited Mainfreight management and component audit teams in USA, Europe and Australia and held discussions with the component teams for all significant non-New Zealand locations (Australia, USA, Europe and Asia). During these discussions, the work performed by each team was considered, and the key judgements were discussed, as were findings relevant to the group audit.</p>

Information other than the financial statements and auditor's report

The directors of the Company are responsible for the other information. The other information comprises the annual report, which includes the Climate Statement but does not include the financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

If, based upon the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Directors' responsibilities for the financial statements

The directors are responsible, on behalf of the entity, for the preparation and fair presentation of the consolidated financial statements in accordance with New Zealand Equivalents to International Financial Reporting Standards and International Financial Reporting Standards, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing on behalf of the entity the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing (New Zealand) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

A further description of the auditor's responsibilities for the audit of the financial statements is located at the External Reporting Board's website: <https://www.xrb.govt.nz/standards/assurance-standards/auditors-responsibilities/audit-report-1-1/>. This description forms part of our auditor's report.

The engagement partner on the audit resulting in this independent auditor's report is Simon O'Connor.

Statutory Information

DIRECTORS

The following people held office or ceased to hold office as Director during the year and received the following remuneration including benefits during the year:

Name		Remuneration 2026	Remuneration 2025	Current Director or Date Appointed or Resigned
Bruce Plested	1	–	–	Current
Don Braid	2	\$3,256,653	\$2,903,367	Current
Simon Cotter	3	\$150,000	\$120,000	Current
Bryan Mogridge	3	\$150,000	\$120,000	Current
Kate Parsons	3	\$150,000	\$120,000	Current
Richard Prebble	4	–	\$160,000	Retired
Annie Steel	3	\$150,000	\$120,000	Current
Hayley Buckley	3	\$150,000	\$120,000	Current

1. Elected not to receive director fees since 2014.
2. See Group Managing Directors Remuneration below.
3. No fees are payable in connection with committee roles.
4. Richard Prebble retired from the Mainfreight board at the end of July 2024, and was paid directors fees of \$40,000 and a retirement allowance of \$120,000 as approved at the July 2024 AGM.

GROUP MANAGING DIRECTORS REMUNERATION FOR THE YEAR ENDING 31 MARCH 2026.

This section details the remuneration earned by the Group Managing Director (GMD), Don Braid for the year ending 31 March 2026

Don Braid's overall remuneration consists of Fixed Annual Remuneration (FAR), a Discretionary Bonus and a Short Term Incentive (STI).

FAR is reviewed every two years in October by the Remuneration Committee, and approved by the Board.

The Discretionary Bonus consists of team profit share bonus and a one week Christmas Bonus, based on company performance.

The STI is reviewed annually by the Remuneration Committee, and approved by the Board.

The at risk portion of the STI is 33% of base FAR

The performance targets for the GMD STI scheme for the year ending 31 March 2026 were as follows

Target KPIs	Weighting
Profit before Tax Growth	20%
Revenue Growth	20%
Return on Revenue	15%
Quality	15%
People Development	15%
Culture and Supply Chain Development	15%

The below table sets out the actual GMD FAR, and the payment of performance components of the GMD's remuneration over the last two years.

	FAR*	Fixed Remuneration Benefits**	Sub Total	Discretionary Bonuses	STI Target	STI Earned	STI Earned as % of Maximum Entitlement	Total Remuneration
2026	3,045,000	3,095	3,048,095	58,558	33%	150,000	16%	3,256,653
2025	2,900,000	3,367	2,903,367	–	33%	–	0%	2,903,367

* FAR excludes 4% company KiwiSaver contribution as GMD has elected to not receive the company contribution to KiwiSaver.

** Benefits consist of the use of a company fuel card, as GMD is not provided with a company vehicle.

Notes:

- Net Profit (NPAT) is net profit after tax, abnormal items and minorities but before dividends.
- Net Profit Before Abnormal Items for the year is NPAT excluding abnormal items after tax
- Profit Before Abnormal Items and Taxation – see note 5 for reconciliation.
- EBITDA (adjusted) is defined as earnings before net interest expense, tax, depreciation, amortisation, abnormal items and royalties – see note 5 for reconciliation.
- EBITA is defined as earnings before net interest expense, tax, abnormal items and royalties – see note 5 for reconciliation
- Abnormal items for the year ended 31 March 2024 – Relates to the removal of the ability to depreciate buildings with a life over 50 years for tax deduction purposes from 1 April 2024
- Pro-forma Cash Flow is defined as NPAT before amortisation, depreciation, and abnormal items after tax.
- Net Tangible Assets does not include Software or Deferred Tax Assets.
- Net Debt / (Net Funds) is long-term plus short-term debt less cash balances.
- Equity Ratio is Net Tangible Assets as a percentage of Total Assets.
- Return on NTA is NPAT as a percentage of Net Tangible Assets.
- Net Interest Cover is Profit before abnormal items, interest and tax divided by net interest cost.
- Per Share calculations are based on the average issued capital in each year – 100,698,548 shares in 2026.
- Adjusted Earnings per Share figures are based on Net Profit with tax affected abnormal items added back.

Glossary of Terms

Air & Ocean	Distinguishes Mainfreight's traditional international freight from that moved by land across borders in Europe and the Americas
